## P R E F A C E .

THE Publishers of the GLASGOW POST-OFFICE DIRECTORY beg to thank the Public for the marked success which has attended their labours hitherto. The work, it will be noticed, has undergone a change in size, which, in the opinion of the Publishers, is a decided improvement, now forming a very handsome volume as compared with previous publications, and should the change meet with the approbation of the Public, the object contemplated will be attained.

POST-OFFICE, GLASGOW,

# ALMANAC AND TIDE TABLE.

FROM JUNE, 1856, TILL JUNE, 1857.

The daily rising and falling of the waters of the ocean are, in general, denominated Tides. The rising is called the Flood, or Flux; and when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us and with our antipodes at the same time.

This opposite tide is rather more difficult to explain than that which is drawn up beneath the moon. In order to render the question more simple, let us suppose the earth to be everywhere covered by the ocean, as in the following figure:—

M is the moon, A B C D the earth. Now, the waters on the surface of the earth about A being more attracted than in any other part, will be elevated, the attraction of the moon at B and C being less; but still it will be greater there than at D, which is the part most distant from the moon.

The body of the earth will therefore be drawn away from the waters at D, leaving a protuberance similar to that at A: so that the tide, A, is produced by the waters receding from the earth, and the tide, D, by the earth receding from the waters.

The influence of the sun on the tides is less than that of the moon; for, observe, that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now, the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerable effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his *Mécanique Céleste*, the mean force of the sun in raising the tides is to the mean force of the moon as 1 to  $1\frac{1}{2}$ ; and Emerson, in page 423, second edition of his *Treatise on Fluxions*, calculates the height of the solar tide to be 1.63 feet, and the height by the moon's influence to be 7.28 feet; consequently, the height of their joint force to be 8.91 feet. The height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun and moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that, when the moon is in Perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At new moon, when she is in conjunction with the sun, and at full moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries, and therefore will produce the highest, or what are called Spring Tides. And Neap Tides are produced by the difference of their force when in quadrature. The Spring Tides take place about two days after full moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and should the moon happen to be in Perigee, their joint effects will produce the greatest Spring Tides.

The mean duration of the ebb and flow is about 12 H. 25 M., that is, half the lunar day of 24 H. 50 M. the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior or inferior of the place; that is to say, twice in 24 H. 50 M.

The following Tide Table is constructed on strict scientific principles, from the very accurate Tide Tables of J. W. Lublock, Esq., London (the Tide Table in the *Nautical Almanac* for 1856 is also calculated from the same Tables), and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the Tide by observation may not at all times correspond precisely with the time found in the Table.

These Tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's Phases are calculated to civil time. The civil day begins at midnight.

## TIDE TABLE OF SOME OF THE PRINCIPAL PORTS IN ENGLAND, SCOTLAND, AND IRELAND.

The times of High Water at full and change of the moon, from which the following equations are calculated, are reckoned from apparent noon. They represent the actual times of High Water when the moon passes the meridian at the same time as the sun, or the intervals between the times of transit of the moon and the times of High Water on full and change days. With which, and the equation of time, the times of High Water at all the Ports here given will be obtained by addition, as here annexed.

## ECLIPSES OF THE SUN IN 1857.

In the year 1857 there will be two Eclipses of the Sun.

I.—A total Eclipse of the Sun, March 25, 1857, invisible at Greenwich. Begins on the earth generally, March 25, 50 minutes past 7 P.M., mean time at Greenwich, in longitude 155° 18' east of Greenwich, and latitude 32° 31' south. Central eclipse begins generally, March 25, 46 minutes past 8 P.M., in longitude 141° 18' east of Greenwich, and latitude 34° 19' south. Central eclipse at noon, March 25, 24 minutes past 10 P.M., in longitude 154° 32' west of Greenwich, and latitude 3° 49' south. Central eclipse ends generally, March 26, 12 minutes past midnight. Ends on the earth generally, March 26, 8 minutes past 1 A.M., in longitude 104° 36' west of Greenwich, and latitude 25° 50' north.

II.—An angular Eclipse of the Sun, September 17, 1857, invisible at Greenwich. Begins on the earth generally, September 18, 37 minutes past 2 A.M., in longitude 47° 49' east of Greenwich, and latitude 36° 17' north. Central eclipse begins generally, September 18, 43 minutes past 3 A.M., in longitude 31° 17' east of Greenwich, and latitude 40° 15' north. Central eclipse at noon, September 18, 23 minutes past 5 A.M., in longitude 97° 48' east of Greenwich, and latitude 14° 34' north. Central eclipse ends generally, September 18, 28 minutes past 7 A.M., in longitude 156° 1' east of Greenwich, and latitude 18° 14' south. Ends on the earth generally, September 18, 33 minutes past 8 A.M., in longitude 139° 34' east of Greenwich, and latitude 22° 14' south.

## EXEMPLIFICATION AND CONSTRUCTION OF THE FOLLOWING TABLES.

TO FIND THE TIME OF HIGH WATER AT ANY PLACE IN THE GENERAL TIDE TABLE.

RULE.—To the time of high water at Glasgow on the given day, add or subtract the correction for the required place as stated in the table, and the time of high water will be obtained. When the sum of the

correction and of the time of high water in the table exceeds 12 hours, subtract 12 hours, and the remainder will be the time of high water in the morning or evening of the given day, as the column denotes; when the sum of the former quantities is less than 12 hours, this sum will be the time of high water required in the evening of the preceding day, or the morning of the given day, according as the column is marked morning or evening. Or the morning and the evening tides may be found thus:—If the morning tide be sought, and the sum be above 12 hours, take the time from Glasgow for the preceding evening, to which add the correction for the required place; from the sum subtract 12 hours, and the remainder is the morning tide at the place required. If the evening tide is wanted, and the sum exceed 12 hours, take the Glasgow morning tide for the given day, to which apply the correction for the required place, from the sum subtract 12 hours, and the remainder is the evening tide at the place required.

Required the time of high water at Peterhead, September 10, 1857.

On May 10, 1857, the sun's longitude was  $49^{\circ} 44'$ , and the obliquity of the ecliptic  $23^{\circ} 28'$ , required the sun's declination at noon.

To the log. sine of sun's longitude at noon, $49^{\circ} 44'$ , .....	9.882550
Add the log. sine of obliquity of ecliptic, $23^{\circ} 28'$ , .....	9.600118
The sum (rejecting $10^{\circ}$ from the indices) is the sine of the sun's declination, $17^{\circ} 41'$ , .....	= 9.482668

Required the time of the sun's rising and setting at Glasgow, in latitude  $55^{\circ} 52'$  north, longitude  $4^{\circ} 16'$  west, on May 20, 1857.

By a table of semi-diurnal arcs, the approximate time of the sun's rising and setting is—

Rising,.....	4 h. 8 m.	Setting,.....	7 h. 52 m.
Longitude in time of Glasgow,.....	+ 0 17	.....	+ 0 17
	4 25		8 9

The sun's declination reduced to these times is  $19^{\circ} 58'$  and  $20^{\circ} 6'$ , and the polar distances are  $70^{\circ} 2'$  and  $69^{\circ} 54'$ . The horizontal refraction, less sun's parallax, is  $33'' - 17.9'' = 90^{\circ} 33' 8''$ . Hence the following computation:—

NOTE.—The latitude of Glasgow is  $55^{\circ} 52'$  north, the longitude  $4^{\circ} 16'$  west of Greenwich; consequently there are 17 minutes of difference of time between the clocks of Greenwich and the clocks of Glasgow, the Greenwich time being earlier. The clocks of the United Kingdom are now generally adjusted to Greenwich time.

(INLAND BILL) **DRAFT** OR **ORDER**, after 10th October, 1853, for the payment of any sum of money to the bearer, or to order, on demand, .....1d.

And the following instruments shall be deemed and taken to be drafts or orders for the payment of money within the intent and meaning of this act, and of any act or acts relating to the stamp duties on bills of exchange, drafts, or orders, and shall be chargeable accordingly with the stamp duties imposed by this act, or any such act or acts, viz.:—All documents or writings usually termed letters of credit, or whereby any person to whom any such document or writing is or is intended to be delivered or sent, shall be entitled, or be intended to be entitled, to have credit with, or in account with, or to draw upon any other person for, or to receive from such other person any sum of money therein mentioned.

*Exemptions from the Duties on Drafts or Orders.*—

All drafts or orders for the payment of money to the bearer on demand, drawn upon any banker or bankers, exempt from stamp duty at the date of the Act 17 & 18 Vict. c. 59. These are drafts on bankers who shall reside or transact the business of a banker within the distance of fifteen miles of the places where such drafts or orders shall be issued. They must specify the place where issued, and bear date on or before the day on which they are issued, and not direct the payment to be made

by bills or promissory notes. In reference to this exemption, the Act 17 & 18 Vict. c. 83, § 7, provides that they shall not be remitted or sent to any place beyond fifteen miles in a direct line from the bank or place at which the same are made payable, or be received in payment, or as a security, or be otherwise negotiated or circulated at any place beyond that distance. Penalty on persons sending or receiving such drafts, £50. Section 8th provides, that unstamped drafts, received within fifteen miles, on the adhesive stamp being affixed and cancelled, may be received and negotiated beyond that distance.

All letters of credit, whether in sets or not, sent by persons in the United Kingdom to persons abroad, authorizing drafts on the United Kingdom.—16 and 17 Vict. c. 59.

*Note.*—The duty on drafts or orders may be impressed on the paper, or an adhesive stamp may be affixed.—16 & 17 Vict. c. 59, § 3. The adhesive stamp may be either a receipt or draft stamp.—17 & 18 Vict. c. 83, § 10. Where an adhesive stamp is used, the maker of the draft to cancel the stamp by writing on it his name or initials. Penalty for omission, £10. Penalty for removing adhesive stamps or using them a second time, or doing any act to defraud of duty, £20.—16 and 17 Vict. c. 59, § 4 and 5.

3000	— 4000...13s. 4d.
4000 and upwards	.....15s.

*N.B.*—The duties on Foreign Bills, drawn out of the United Kingdom, are to be denoted by adhesive stamps. The amount of duty on the adhesive stamps is impressed on two parts. The Board of Inland Revenue recommend that the cancellation should be on one of the parts, and the other left legible.

If a Foreign Bill payable abroad, and as to which the provision "drawn in sets of three or more" apply, shall be drawn in a single bill, the duty will be the same as on an Inland Bill, and if in a set of two, the duty on each will be the same as on an Inland Bill. This is in accordance with the opinion of the Board of Inland Revenue (see North British Daily Mail, 3d November, 1854). But the Board have given an opinion that a Foreign Bill drawn abroad and payable in this country in duplicate or triplicate only represents one transaction, and is liable to the duty on one Inland Bill of the same amount,—that is, if one of the parts have the full duty, the others may be unstamped (see Times, 6th November, 1854). The schedule of the act does not provide for such a Bill being drawn in sets. Bills bearing to be drawn out of the United Kingdom are to be deemed Foreign Bills so drawn, although they may in reality be drawn in the United Kingdom, 17 and 18 Vict. c. 83, § 4. A person in the United Kingdom drawing and issuing a bill payable out of the United Kingdom in a set, must draw the whole set, and a person transferring or negotiating such bill must transfer and deliver, stamped, the whole number of the set. Penalty, £100. A person taking such bill must get the whole set, stamped, otherwise he cannot recover on it or make it available, *ib.* § 6. This applies only to bills drawn within and payable out of the United Kingdom.

**INLAND BILL, DRAFT, or ORDER** for the payment of any sum of money, though not made payable to the bearer, or to order, if the same shall be delivered to the payee, or some person on his or her behalf, the same duty as on a bill of exchange for the like sum, payable to bearer or order.

**INLAND BILL, DRAFT, or ORDER** for the payment of any sum of money, weekly, monthly, or at any other stated periods, if made payable to the bearer, or to order, or if delivered to the payee, or some person on his or her behalf, where the total amount of the money thereby made payable shall be specified therein, or can be ascertained therefrom, or shall be indefinite, the same duty as on a bill payable to bearer or order on demand.

PROMISSORY NOTE for the payment of any sum of money by instalments, or for the payment of several sums of money at different days or times, so that the whole of the money to be paid shall be definite and certain, the same duty as on a promissory note, payable otherwise than to the bearer on demand, for a sum equal to the whole amount of the money to be paid.

BILLS OF LADING.....6d.

BONDS AND OTHER SECURITIES.

BOND (personal) given for any certain sum of money not exceeding

	s.	d.

Exceeding £50 and not exceeding £100	2	6
100 —	3	9
150 —	5	0
200 —	6	3
250 —	7	6

And where the same shall exceed £300, then for every £100, and also for any fractional part of £100, 2s. 6d.

BOND as security for moneys to be thereafter lent, advanced, or paid, or which may become due on account-current, together with any sum already advanced or due, or without, as the case may be,—

Where the money secured or to be ultimately recoverable shall be limited not to exceed a given sum,—The same duty as on a bond for such sum.

Where uncertain and without any limit,—The same as on a bond for a sum equal to the amount of the penalty.

Where there is no penalty, the bond shall be available for such an amount only as the *ad valorem* stamps will cover.

PERSONAL BOND given as security for the transfer or retransfer of any share in any of the *Government or Parliamentary Stocks or Funds*, or of the *Banks of England or Ireland*, or of the *East India Company*, or of any other company or corporation,—The same *ad valorem* duty as on a bond for a sum of money equal to the value of the stock or fund secured, according to the average price at the date of the bond, or on either of the ten days preceding; or the latest day preceding on which there shall have been a known sale.

PERSONAL BOND given as security for the payment of any sum of money, or for the transfer or retransfer of stock secured also by a wadset, or other instrument paying duty as a wadset, or for the performance of covenants contained in such instrument, or for both those purposes, provided such other instrument bear even date with, and be referred to in such bond—

Where the sum of money or the value of the stock secured shall not exceed £800,—The same *ad valorem* duty as on a mortgage or wadset for securing the like amount or value.

Exceeding £800, £1.

PERSONAL OR HERITABLE BOND given as an additional or farther security for the payment of any sum of money, or for the transfer or retransfer of any share in any of these stocks previously secured by a bond or other security therein referred to, which has paid the proper *ad valorem* duty on bonds at the date thereof,—

Where the sum or the value of the stock shall not exceed £1400,—The same *ad valorem* duty as on

a bond or mortgage for securing the like sum or value.

Where said sum shall exceed £1400, £1, 15s.

BOND — *Transfer or Assignment* disposition or assignment of any such bond as aforesaid, and which has paid the proper *ad valorem* duty on bonds—

Where the principal money or stock secured by the bond shall not exceed in whole £1400,—The same duty as on a bond for the total amount or value.

And in every other case such transfer, assignment, disposition, or assignment shall be chargeable with the duty of £1, 15s.

PERSONAL OR HERITABLE BOND given as the only or principal security for payment of any annuity upon the original creation and sale thereof,—The same *ad valorem* duty as on a conveyance upon sale in consideration of the sum or value given or agreed for the purchase.—See Duties on Conveyances.

PERSONAL BOND given as a collateral or auxiliary security for the payment of any annuity upon the original creation and sale, where granted or conveyed or secured by any other deed or instrument, paying the *ad valorem* duty of conveyances upon the sale of any property—

Where such *ad valorem* duty shall not exceed 20s. such bond shall be chargeable with a stamp duty of equal amount therewith.

And where such exceeds 20s., £1.

PERSONAL OR HERITABLE BOND given as a security for the payment of any annuity (except upon the original creation and sale), or of any sum or sums of money at stated periods (not being interest or rent upon a lease), for any definite and certain term, so that the total amount to be paid can be previously ascertained,—The same *ad valorem* duty as on a bond of the like nature for the payment of a sum of money equal to such total amount.

PERSONAL OR HERITABLE BOND given as a security for payment of any annuity (except as aforesaid), or of any money at stated periods (not being interest nor rent upon lease), for the term of life or any other indefinite period, so that the whole cannot be previously ascertained,—

Where the annuity or sum secured shall not exceed £50 per annum, £1.

Exceeding £50 and not exceeding £100 per annum, £2.

And where exceeding £100 per annum, then for every £100, and also for any fractional part of £100 per annum, £2.

But where there shall be both a personal and heritable bond in separate deeds of the same date for securing any such annuity, &c., and the *ad valorem* duty above charged amounts to £2 or upwards, the heritable bond only to be charged with *ad valorem* duty, and the personal bond to be charged only with a duty of £1.

BOND of any kind or description given for any other purpose than as aforesaid,—The duty chargeable by any Act in force at passing 13th and 14th Vict., c. 97.

But no such bond shall be charged with any greater amount of stamp duty than the *ad valorem* duty before charged upon a bond given for the pay-

ment of a definite and certain sum of money of the same amount as the penalty of such bond.

BOND or RELIEF to a cautioner or surety, £1, 15s.

BOND for the due execution of an office, and to account for money received by virtue of such office, £1, 15s.

BOND given for, or in respect of, duties of customs or excise, or for preventing frauds or evasions thereof, or for any other matter relating thereto—relanding of plate—registering of British vessels,—5s.

HERITABLE or PERSONAL BOND, of any kind whatever, not otherwise charged nor expressly exempted from all stamp duty, £1, 15s.

Note.—The above provision, that the duty shall not exceed the *ad valorem* duty on a sum the same amount as the penalty in the bond, applies to the four preceding entries.

CHARTER, DISPOSITION, or CONTRACT (after 10th October, 1854), containing the first original constitution of *feu* and *ground-annual rights* in *Scotland* (not being a lease or tack for years), in consideration of an annual sum payable in perpetuity, or for any indefinite period, whether *feu farm* or other rent, *feu-duty*, *ground-annual*, or otherwise:—

450 ...	500	2 10 0
500 ...	550	2 15 0
550 ...	600	3 0 0

And where the purchase or consideration money shall exceed £600, then for every £100, and also for any fractional part of £100; 10s.

It is directed that the purchase money or consideration shall be *truly expressed and set forth in words at length* in or upon every deed or instrument of conveyance; and where such consideration shall consist either wholly or in part of any stock or security, the value thereof respectively, to be ascertained as after mentioned, shall also be truly set forth as aforesaid in or upon every such deed or instrument; and such value shall be deemed to be the purchase or consideration money, or part thereof, as the case may be, in respect whereof the *ad valorem* duty shall be charged.

And where the consideration or any part of the consideration shall be *stock* in the public funds, or any government debenture or stock of the banks of England or Ireland, or any debenture or stock of any corporation, company, society, or persons or person, *payable only at the will of the debtor*, the duty shall be calculated (taking the same respectively, whether constituting the whole or a part only of such consideration) according to the average selling price thereof respectively on the day or on either of the ten days preceding the date of the deed or instrument of conveyance, or if no sale shall have taken place within such ten days, then according to the average selling price thereof on the day of the last preceding sale, and if such consideration or part thereof shall be a mortgage, bond, or debenture, the amount whereof shall be recoverable by the holder, or any other security whatsoever, whether payable in money or otherwise, such calculation shall be made according to the sum due thereon for both principal and interest.

In any case where property shall be sold and conveyed in consideration of any rent-charge or annuity, or any annual or periodical payment to be made permanently or for any indefinite period, so that the total amount of the money to be paid for such property cannot be previously ascertained, which rent-charge, annuity, or other payment, shall be made, subject to redemption or purchase upon terms and conditions specified in the deed or instrument, whereby the property sold shall be conveyed to, or vested in, the purchaser, or any person by his direction, the money or the consideration mentioned in the said deed or instrument as that on payment or transfer, delivery, or satisfaction, of which the said rent-charge, annuity, or other payment, shall be redeemed or purchased, or repurchased, or shall cease to be payable, shall be deemed to be the purchase money or consideration, on the sale of the said property so sold and conveyed, and in respect of which last-mentioned purchase money or consideration, the *ad valorem* duty shall be chargeable; and where any such last-mentioned consideration shall consist wholly, or in part, of any stock or security mentioned in the Act 13 and 14

Vict., c. 97, the value thereof shall be ascertained as in such Act is in that behalf provided; and where any such annuity rent-charge, or other payment aforesaid, shall be made, subject to redemption or purchase, or repurchase or discountance, upon payment or satisfaction of any money or value to be ascertained or calculated in manner provided in the said deed or instrument, the amount of such money or value shall, for the purpose of charging the said *ad valorem* duty, be ascertained or calculated, as in such deed or instrument shall be so provided. 16 and 17 Vict., c. 59, § 11.

COPIES or EXTRACTS from the public register, or from books of any court of record, 2s. 6d. And where the same shall contain more than 600 words, any less quantity of words over and above the first 600 words, or above any second, third, or other full quantity of 600 words, a further duty of 2s. 6d.

Copy attested of any agreement or deed for the security or use of a person not being a party or taking benefit under it, 1s.

Progressive duty for every 720 words, 1s.

Copy attested of a will, testament, or codicil, or of a confirmation of a testament, testamentary or dative, same duty as above.

COPYRIGHT OF DESIGNS, Certificate of, £5.

COVENANT.—Any deed containing a covenant for the payment or repayment of any sum, or for the transfer or retransfer of stock, in any case where a mortgage, if made for the like purpose, would be chargeable under this schedule with any *ad valorem* duty exceeding in amount £1, 15s.; or for the payment of any annuity, or any sums at stated periods, in any case where a bond for the like purpose would be chargeable with any such duty, the same *ad valorem* duty as on a bond respectively for the like purpose.

When it is an additional security to a properly stamped bond referred to in it, the *ad valorem* duty here charged not payable.

Exemption.—Any covenant contained in a deed chargeable under MORTGAGES or SETTLEMENT.

DEBENTURES, or CERTIFICATE for receiving back duties of Customs or Excise on goods exported after the 10th October, 1853.

Where the drawback to be received shall not exceed £10 ..... 1s. 0d.

DEED not otherwise charged ..... £1 15s.

DEPUTATION OF A GAMEKEEPER ..... £1 15s.

DISENTAIL, Instrument of ..... £1 15s.

DUPLICATE, or COUNTERPART of any deed or instrument, of any description whatever, chargeable with any stamp duty, under any act or acts in force.

Where such stamp duty (exclusive of progressive duty) shall not amount to the sum of 5s., the same duty as chargeable on the original deed or instrument, including the progressive duty thereon (if any).

And where the same (exclusive as aforesaid) amounts to the sum of 5s. or upwards, 5s.

And where in the latter case any such deed or instrument, together with any schedule, receipt, or other matter, put or endorsed thereon, or annexed thereto, contains 2160 words, or upwards, for every entire quantity of 1080 words contained therein above the first 1080 words, the progressive duty of 2s. 6d.

In such latter case the duplicate or counterpart is not available unless stamped with a particular stamp for denoting the payment of the full stamp duty on the original deed or instrument, which shall be impressed upon such, on the same being produced, together with the original deed or instrument, and on the whole being duly executed and stamped in all other respects. Duplicates to have denoting stamp impressed, are received by the Solicitor of Inland Revenue, Edinburgh. See afterwards.

As to the duties in the first column, if the rent shall be under £20, and if a sum of money, by way of fine, premium, or grassum, shall be paid, the same duty as on a conveyance on sale; if the rent shall be above £20, both the lease duty and conveyance on sale duty. In the case of a lease, to which the second and third columns apply, where there is a fine, premium, or grassum, and whatever the amount of rent, both the *ad valorem* lease duty and conveyance on sale duty.—13 and 14 Vict. c. 97; and 17 and 18 Vict. c. 83.

LEASE or TACK made for any term or period less than a year, at a rent reserved or payable for the same, shall be chargeable with the same *ad valorem* duty as a lease or tack, at a yearly rent of the same amount as the sum so reserved or payable.—17 & 18 Vict. c. 83, § 23.

LEASE or TACK of any mine or minerals, or other property of a like nature, either with or without any other lands or heritable subjects, where any portion of the produce shall be reserved to be paid in money or kind—

If it be stipulated that the value shall amount at least to a given sum per annum, or it be limited not to exceed a given sum, to be specified, then the *ad valorem* duty shall be charged in respect of the highest of such sums.

And where any yearly sum is reserved in addition to or together with such produce, relative to the yearly amount or value of which there is no such stipulation or limitation, the *ad valorem* duty shall be charged in respect of such yearly sum.

And where both a certain yearly sum and also such produce relative to the yearly amount or value of which there shall be such stipulation or limitation is reserved, the *ad valorem* duty shall be charged on the aggregate of such yearly sum, and also of the highest yearly amount or value of such produce.

N.B.—Where a grassum or rent is in grain, it is to be charged according to the stipulated rate of conversion, and if none be stipulated, according to the fiars on an average of seven years. Where there are separate grassums or rents payable to separate *pro indiviso* proprietors in the same deed, the stamp is on the *cumulo* amount.

And where the same exceeds £300, for every £100, and fractional part of £100; 2s. 6d.

Where the deed is made as a security for the repayment of money, to be thereafter lent, advanced, or paid, or which may become due upon an account current, together with any sum already advanced or due, or without, other than any sums to be advanced for the insurance of any property comprised in such security against damage by fire, or for the insurance of any life or lives, or for the renewal of any grant or lease upon the dropping of any life or lives, pursuant to any agreement in any deed whereby any estate or interest held upon such life or lives is granted, assigned, or assured, or whereby any annuity is granted or secured for such life or lives—

If the total amount of the money secured, or to be ultimately recoverable, is limited not to exceed a given sum,—The same duty as on a wadset for such limited sum.

And if the total amount is uncertain and without

any limit, then the same shall be available as a security or charge for such an amount only as the *ad valorem* duty denoted by the stamp will cover. And where the same is made as a security for the transfer or retransfer of any share in any of the government or parliamentary stocks or funds, or of the Bank of England, or of Ireland, or of the East India or of the South Sea Company, or of any other company or corporation, in consideration of stock, or money advanced or lent at the time, or previously due and owing, or foreborne to be paid, being payable.—The same duty as on a mortgage for a sum equal to the value of the stock or fund secured according to the average price at the date of the mortgage, or on either of the ten days preceding, or on the latest day preceding on which there has been a known sale.

And where the same respectively shall be made, as a security for the payment of a sum of money, and also for the transfer or retransfer of a share in any of the said stocks or funds, the said *ad valorem* duty shall be charged in respect of each.

And in case the same respectively shall be made, as a security for the payment or transfer, to different persons, of separate and distinct sums or shares,—The *ad valorem* duty shall be charged for each separate and distinct sum or share therein specified and secured, and not upon the aggregate amount.

And where any such deed or instrument shall be made respectively as a security for the payment of any annuity, or any sum by way of repayment, or in satisfaction or discharge, or in redemption of any sum lent, advanced, or paid, as or for or in the nature of a loan intended to be repaid, discharged, or redeemed, in manner aforesaid,—The same duty as on a mortgage or wadset for the sum of money so lent, advanced, or paid.

TRANSFER, disposition, or assignation of any wadset or other such security, &c.—

Where no further sum or stock shall be added to the principal already secured, if such principal shall not exceed in the whole £1400, the same duty as on a wadset, &c., for the total amount or value of such principal.

And if such principal shall exceed in value in the whole the sum of £1400, £1, 15s.

And where any further sum or stock shall be added to the principal already secured,—The same duty as on a wadset, &c., for such further money or stock only.

And in every other case not expressly provided for, £1, 15s.

Such instrument is not chargeable with further duty (except progressive duty) by containing any further or additional security for the payment, transfer, retransfer of such money, stock, interest, or dividends, or any new covenant, proviso, or other matter whatever in relation to such money or stock, interest, or dividends.

Any deed made for the further assurance only of any property already constituted a security, by a deed which has paid the *ad valorem* duty—

Also any deed made as an additional or further security for any sum, &c., already so secured.

Where the total amount or value already secured does not exceed £1400,—The same duty as on a wadset for the amount.

And in any other case, £1, 15s.

If any further sum be added to the principal, the deed is chargeable only (exclusive of progressive duty) with the *ad valorem* duty on wadsets, &c., in respect of such further sum.

RECONVEYANCE, surrender, discharge, or renunciation of any wadset, or other such security, or of the benefit thereof, or of the money or stock secured—

Where the total amount of the principal shall not exceed £1400, the same duty as on a wadset for the amount.

And in any other case, £1, 15s.

NEWSPAPERS.—Any newspaper printed on one sheet not exceeding 2295 inches in superficies, 1d.

RECEIPTS for money amounting to £2 or upwards, 1d.

The following provisions as to what shall be deemed a receipt, and the exemptions from receipt duty by 55 Geo. III. c. 184, are still in force.

Any note, memorandum, or writing whatever, given upon the payment of money, whether signed or not, shall be a receipt if it shall import or signify that any sum of money, debt, or demand, or any part thereof amounting to £2 or upwards has been paid or settled; and like documents given upon payment by bills, drafts, promissory notes, or other securities for money, are also receipts.

According to decisions, a simple acknowledgment of a sum of money in loan, or of the correctness of a debt, or of a deposit of money, is not liable to stamp duty, either as a receipt or promissory note. The judges held it essential to render a receipt liable to duty that something formerly due had been discharged. On this principle a receipt for a sum of money as a donation to a religious or charitable purpose, not being anything formerly due, would not be liable. The Board of Inland Revenue have intimated that they are to regard such receipts as exempted.

*Among the exemptions from receipt duty are—Receipts written on promissory notes, bills, drafts, or orders for the payment of money, duly stamped.*

*Letters by the general post acknowledging the safe arrival of any bills of exchange, promissory notes, or other securities for money.* This exemption is repealed by 17 and 18 Vict. c. 83, § 13. The effect of the repeal is, that letters by the general post are put on the same footing as letters delivered or sent otherwise. If they amount to acknowledgments of the statutory description (that is, whereby any sum of money, debt, or demand, or any part thereof amounting to £2 or upwards, shall be expressed to have been paid, settled, balanced, or otherwise discharged or satisfied, or which shall import or signify such),—given for or upon payments made by or with bills of exchange, drafts, promissory notes, or other securities for money,—they will be liable to the receipt duty.

*Receipts written on any bond, mortgage, or other security, or any conveyance, deed, or instrument whatever, duly stamped, acknowledging the receipt of the consideration money therein expressed, or the receipt of any principal money, interest, or annuity thereby secured.*

*Note.*—Stamps may be impressed or affixed. Where adhesive stamps are affixed, the granter is required to cancel the stamps by writing his name or initials on them. Penalty for omission, £10. Penalty for removing adhesive stamps, or using them a second time, or doing any fraudulent act to defraud of duty, £20.—16 and 17 Vict. c. 59, § 3, 4, and 5.

RESIGNATION.—Principal or original instrument of resignation, or service, or cognition of heirs, or charter, or sashine of any houses, lands, or other heritable subjects holding burghage; also instrument of resignation of lands, &c., not held burghage, 5s. Progressive duty, 5s.

SASINE.—Instrument of sasine given on any charter, precept of *clare constat*, or precept from Chancery, or on any wadset, heritable bond, disposition, apprising, adjudication of any heritable subjects not of burghage tenure, 5s. Progressive duty, 5s.

SCHEDULE OR INVENTORY of heritage, or movables, or containing the terms of any proposed sale, lease, &c., or regulations for the cultivation and management of any farm, &c., separate from and referred to in the lease, bond, deed, agreement, &c., chargeable with any stamp duty not exceeding 10s.—The same duty as shall be chargeable on such lease, bond, agreement, &c., and where referred to in such, chargeable with a duty exceeding 10s.; 10s. Progressive duty, 10s.

SCRIP CERTIFICATE, after 4th Aug., 1853, that is to say, any document denoting or intended to denote the right or title of the holder thereof, or any person to any share or shares in any joint-stock or other company, or proposed or intended company, or any certificate declaring or entitling the holder thereof, or any person to be or become the proprietor of any share or shares of or in any such company, where such certificate, or the right or title to such share or shares shall be, or intended to be, transferable by the delivery of such certificate, or otherwise than by deed or instrument in writing, 1d.—16 and 17 Vict. c. 63.

SETTLEMENT.—Any deed or instrument, whether voluntary or gratuitous, or upon any consideration other than a *bona fide* pecuniary consideration, whereby any *definite and certain* principal sum or sums of money, or any *definite and certain* shares in any stocks or funds, shall be settled or agreed to be settled upon or for the benefit of any person or persons, either in possession or reversion, either absolutely, or for life or other partial interest, or in any other manner whatsoever,—if such sum or sums, or the value of such share or shares, together, shall not exceed in the whole £100; 5s.

And if the same shall exceed £100, then for every £100, and fractional part of £100; 5s.

All such deeds which contain any settlement of lands or other property, or any other thing besides the settlement of such money or stock, shall be chargeable with such further duty as any separate deed containing such settlement of lands or other property, or other thing, would have been chargeable with, exclusive of the progressive duty.

And where there is more than one such deed chargeable with any such duty exceeding £1, 15s., one of them only shall be chargeable with the *ad valorem* duty; and also where any settlement shall be made in pursuance of any previous articles charge-

able with, and which shall have paid any such duty exceeding £1, 15s., it is not chargeable with the *ad valorem* duty; and the deeds not chargeable with the *ad valorem* duty shall be charged with the duty to which they are liable under any more general description in the stamp schedules; and on the whole being produced, duly executed and stamped, the latter shall also be stamped with a particular stamp for denoting the payment of the said *ad valorem* duty.

*Exemption from this ad valorem duty.*—Wills, testaments, and testamentary instruments, and dispositions *mortis causa*.

**WRIT OF ACKNOWLEDGMENT** by any person infett of lands in Scotland, in favour of the heir or donee of a creditor fully vested in right of an heritable security constituted by infettment, 10s.—16 and 17 Vict., c. 63, § 6.

**INVENTORY DUTY.**

The duty is imposed on the inventory of the personal estate and effects of deceased persons, required to be recorded in the commissary courts according to the rates in the following Table, and is regulated by the amount of such estate in Scotland. The same rates of duty are payable on probates and letters of administration in respect of the personal property situated in England and Ireland:—

Increasing progressively to.....£1,000,000

The inventory duty is paid on the whole personal property situated in Scotland, and probate or administration duty on the whole personal property situated in England and Ireland without deduction of debts; but the Act 5 and 6 Vict. c. 79, § 23,

provides for a return being given on proof of the constitution and payment of the debts. This repayment must be claimed within three years; but the time will be prolonged on application to the Board of Inland Revenue. If there be any omission in the inventory inferring payment of further duty, an additional inventory of such is required to be exhibited, by 48 Geo. III. c. 149, § 38; and § 40 provides that the same shall also specify the amount or value of the estate and effects of the same person comprised in the former inventory. By 16 and 17 Vict. c. 59, § 8, such additional inventory shall be chargeable only with such amount of stamp duty as, together with the stamp duty charged upon the former duly stamped inventory of the estate and effects of the same deceased person, shall make up the full amount of stamp duty, in respect of the total amount of all the estate and effects of the deceased specified in the said additional and any such former inventory. If the estate shall be over-estimated, or something improperly included in the inventory, an inventory on a stamp corresponding to the value must be exhibited, and the original inventory will be allowed on affidavit as a spoiled stamp, within six months of the recording of the second inventory.

**LEGACY DUTY.**

*Legacies, Annuities, Residues, &c.*

To children or their descendants, or lineal ancestors, .....	Duty per cent.
.....£1 0 0	£1 0 0
Brother or sister, or descendant,.....	3 0 0
Uncle or aunt, or their descendant,.....	5 0 0
Granduncle or aunt, or descendant,.....	6 0 0
All other relations or strangers,.....	10 0 0

The husband or wife of the deceased is not chargeable with duty. If the legatee's husband or wife is of nearer consanguinity than the legatee, duty is payable according to such nearer relationship.—16 and 17 Vict. c. 51, § 11.

This duty is payable for every legacy out of the personal or movable estate, or out of or charged upon the real or heritable estate of the deceased, or out of any moneys to arise by the sale, mortgage, or other disposition of the deceased's real or heritable estate, or any part thereof: Also for the clear residue (after deducting debts, funeral expenses, legacies, and other charges first payable thereout) of the personal or movable estate, whether the title to such residue shall accrue by virtue of any testamentary disposition, or upon a partial or total intestacy: And also for the clear residue of the moneys to arise from the sale, mortgage, or other disposition of any real or heritable estate, directed to be sold, mortgaged, or otherwise disposed of by any will or testamentary instrument.

Annuities are valued for legacy duty according to tables annexed to the Succession Duty Act.

Duty is not exigible on legacies or residues under £20; but if a legatee take two or more legacies under any testament, which shall together be of the amount of £20, each shall be charged with duty, though each or either may be separately under that amount.

N.B.—Printed forms and regulations for payment of the legacy duties will be obtained gratis, on application at the Legacy Duty Office, Inland Revenue, Edinburgh; and at the offices of the distributors of stamps in the country.

**SUCCESSION DUTY, 16 and 17 Vict. c. 51.**—The duty commences on the death of persons dying after the 19th May, 1853, and seems to be imposed on all property, both heritable and movable, passing by death, not liable to the duty on legacies and successions to personal estate upon intestacy—the duty imposed by the Legacy Duty Acts. The duty on *heritable property* is charged on the annual value, after allowance of the necessary outgoings (§ 22), as an annuity for the life of the successor (§ 21), which is to be valued by tables annexed to the act.

**PERSONAL PROPERTY** is liable to duty according to the value of the succession; and money charged on heritage—heritable securities—is chargeable as personality (§ 1).

**RATES OF SUCCESSION DUTY.**

Lineal issue or lineal ancestor of the predecessor, £1 per cent.

Brothers and sisters of the predecessor and their descendants, £3 per cent.

Brothers and sisters of the father or mother of the predecessor and their descendants, £5 per cent.

Brothers and sisters of a grandfather or grandmother of the predecessor and their descendants, £6 per cent.

Any other person, £10 per cent.

The husband or wife of the predecessor is not chargeable with duty (§ 18), and if the successor's husband or wife shall be of nearer consanguinity than the successor, duty is paid according to such nearer relationship (§ 11). The following are also *exemptions* from the succession duty:—

1. Successions from the same predecessor, passing on any death, not amounting in principal value to £100 (§ 18).
2. Any succession of less value than £20 in the whole (ib.).
3. Legacies and personal property charged with legacy duty, in respect of the same acquisition (ib.).

*Note.*—The collection of the succession duty will form a branch of the business of the legacy department of the Inland Revenue. Forms of the accounts may be obtained at the Legacy Duty Office, Edinburgh, and at the offices of the distributors of stamps in the country.

**POSTAGE STAMPS, &c.**

As the system of paying Inland Letters has been done away with, the Public must use Postage Stamps.

Collections are made at the Royal Exchange at 9-30, 10, 11-15, a.m., 12-15, 12-45, 2, 3, 3-30, 5,

Stamps may be procured at the General Office, Glassford Street, the Stamp-Office, and the several Receiving Houses.

The Penny Labels, . . . . . at 1d. each.  
 The Twopenny Labels, . . . . . at 2d. „  
 The Fourpenny Labels, . . . . . at 4d. „  
 The Sixpenny Labels, . . . . . at 6d. „  
 The Shilling Labels, . . . . . at 1s. „  
 The Penny Envelopes, 24 for 2s. 3d., or 2 for 2½d.

When the value of Stamps on a letter is less than the amount of the postage to which it is liable, the letter will be charged double the amount of such difference on delivery.

Stamps may be used for *Printed Votes* and *Proceedings in Parliament*, and on Foreign, Colonial, and Ship Letters, *outwards*. Letters for *parts abroad* posted with *Stamps of less value than the full amount of Postage*, if addressed to places to which prepayment is not compulsory, will be forwarded, charged with only such amount of Postage as shall be equal to the difference between the value of the Stamps and the proper rate of Postage; but letters addressed to places abroad, to which prepayment is compulsory, if posted with Stamps of less value than the full amount of Postage, will be sent to the Dead-Letter Office, to be returned, in all practical cases, to the writer. Stamps are not permitted to be used on letters arriving in the United Kingdom from the Colonies or Foreign Countries.

These Regulations are applicable to newspapers in those cases where they are liable to Postage.

If the Stamps affixed to letters are mutilated or defaced, the letters will be liable to the unpaid rate.

A Stamp which has been cut from an envelope and affixed to a letter, entitles it to pass free of charge.

*Redirected* letters are charged an additional postage for each redirection, according to the Prepaid Scale,—except those addressed to any Town and redirected to any place subordinate to, or within the delivery of that Town;

Letters addressed to any subordinate Town and redirected to any other subordinate Town, both being under the same Post Town;

Letters addressed to a subordinate Town and redirected to its principal Post Town, provided they are redirected by an officer of the Post-Office.

Letters to Warm Climates should be sealed with wafers, as wax destroys the letters by melting, causing them to adhere to one another.

No letter, when once posted, can be given up to any but the person to whom it is addressed, neither is any person allowed to alter the address of a letter after being posted.

*Adhesive Stamps* should be placed on the right-hand corner of the upper side of the letters, above the superscription. The most effectual plan is to dip the label wholly in water, to shake off the water immediately, and to press the label upon the letter with a piece of clean blotting paper. *When the gum is dull in appearance, it will require rather more time and moisture to make it stick firmly, than when it is glossy.* The purpose of wetting the label wholly, is to counteract the tendency it has to curl up from the letter, when one side only is wetted, a tendency caused by the expansion of that side as it imbibes the moisture.

### PREPAID RATES OF POSTAGE.

Letters not exceeding *Half an Ounce* in weight, 1d.; *One Ounce*, 2d.; *Two Ounces*, 4d.; *Three Ounces*, 6d., and so on, *two rates* being added for every ounce. Inland letters or packets put *unpaid* into the letter-boxes, are charged *double* the prepaid rates of postage. Letters having an insufficient amount of stamps affixed, are charged with *double* the amount of the difference between the stamps affixed and the *prepaid rates*.

### LIMITATION OF WEIGHT.

A letter to pass *unpaid* by the post must not exceed *Four Ounces*. In the event of any *unpaid* letter above the weight of four ounces being posted, it will be charged with *double* the *prepaid rate* of postage, if *insufficiently paid*, it will be charged with *double* the amount of the difference between the stamps affixed and the prepaid rates, and thus charged, "shall and may be *detained and opened*, and, at the option of the *Postmaster-General*, shall be either returned or given up to the sender thereof, or be given up to the person to whom it shall be addressed, or be forwarded to the place of its destination."—*Treasury Warrant*, 22d Oct., 1847.

### LIMITATION OF SIZE.

A letter to pass by the post, either *paid* or *unpaid*, must not exceed the dimensions of *twenty-four inches* in length, or breadth, or width, or depth. Any letter above these dimensions may, if *fully paid*, be *detained and opened*, or forwarded at the option of the *Postmaster-General*. Any letter *unpaid*, or *insufficiently*, will be taxed precisely after the scale of charge mentioned in the preceding paragraph, as applicable to unpaid letters exceeding four ounces weight, and thus charged, be either *detained and opened*, and returned to the sender, or forwarded, at the option of the *Postmaster-General*. The only exception to the foregoing regulations as to size and weight are in the case of,—1. Parliamentary proceedings or addresses to her Majesty. 2. Petitions to either Houses of Parliament, forwarded to any Member of such House. 3. Printed votes or proceedings of Parliament. Letters or packets to or from public departments or public offices in her Majesty's service. 5. Letters, &c., to or from places abroad.

All persons sending letters by the Post *unpaid*, which, from any cause whatever, cannot be delivered to the parties to whom they are addressed, are liable to pay the postage charged thereon, which may be recovered, with costs, by summary proceedings before a magistrate.

PRINTED VOTES AND PROCEEDINGS IN PARLIAMENT.—Printed votes and proceedings in Parliament are charged at the following rate between places in the United Kingdom:—

Not exceeding 4 ounces,..... 1d.  
 Exceeding 4 ounces, and not exceeding 8 ounces, 2d.  
 Exceeding 8 ounces, and not exceeding 12 oz., 3d.  
 And so on in proportion. Prepayment optional.

And between the United Kingdom and the Colonies by Packet at the same rates, except the following Colonies, viz., Prince Edward Island, Bermuda, Nova Scotia, New Brunswick, Newfoundland, British West Indies (Turk's Island excepted), British Guiana, Surinam, Cayenne, Bahamas, Belize, Hon-

duras, Guatemala, Malta, Gibraltar, New South Wales, East Indies, Mauritius, St. Helena, the Gold Coast, which are charged the Book rate. *For Regulations, see Colonial Book Post.*

**SERVICES OF PARLIAMENTARY NOTICES.**—These notices may be sent through the Post, provided they are posted on or before the 12th December at the chief offices of London, Dublin, and Edinburgh, or any of the following offices:—Birmingham, Bristol, Exeter, Lincoln, Liverpool, Leeds, Manchester, Newcastle-upon-Tyne, Norwich, Shrewsbury, Glasgow, Aberdeen, Inverness, Belfast, Cork, and Athlone. The words, "Parliamentary Notice," must be legibly printed on the face of the letter, the postage must be prepaid by means of Stamps, and a Registration Fee of 6d. at the time of posting, which may be known by applying to the above offices. Duplicate Lists of the Addresses must be sent with the notices, which must be arranged in the same order as entered on the Lists.

#### **NON-COMMISSIONED OFFICERS, SEAMEN, AND SOLDIERS IN HER MAJESTY'S SERVICE ABROAD.**

Letters to seamen and soldiers may be forwarded by Post at the rate of one penny each, under the following regulations:—

1st, The penny must be paid at the time the letter is put into the Post-Office.

2d, The direction must signify the class of seaman or soldier.

3d, The name of the ship, regiment, or corps, to which he belongs.

4th, The letter must not exceed half an ounce, and be upon their private concerns only.

#### **LETTERS FOR SEAMEN AND SOLDIERS IN HER MAJESTY'S SERVICE.**

Letters for seamen and soldiers, whether in her Majesty's or the East India Company's military or naval service (while on actual service), may be forwarded under the foregoing regulations, to India, China, &c., *via* Southampton. They can now be sent to India, *via* Marseilles, on payment of the British rate of 1d., besides the French rate of 5d., if under a quarter of an ounce, or 10d. exceeding that weight, or to any foreign country, on payment of the foreign rate of postage, in addition to the British rate of 1d. as above.

Letters for seamen and soldiers forwarded by private ships (with the following exceptions:—St. Helena, East Indies, New South Wales, Cape of Good Hope, and Mauritius) are charged 3d. each.

Letters of soldiers and seamen addressed to the United States of America will in future be chargeable with the American rate of five cents, or two-pence half-penny sterling each, in addition to the ordinary British rate of one penny; the postage of all such letters must be prepaid.

Letters addressed to enrolled pensioners in Canada are treated the same as letters for soldiers in her Majesty's service.

Warrant-officers, either in the army or navy, or masters' mates, or engineers of the navy, are not entitled to transmit letters at less than the usual rates of Postage.

Seamen's or soldiers' letters received from any part beyond sea upon which the said penny has not been prepaid, shall be charged to the receiver with double the rate—*viz.*, 2d. each.

#### **REDIRECTED LETTERS FOR OFFICERS, SOLDIERS, AND SEAMEN.**

Letters redirected to commissioned officers in the army or navy, subject to foreign or colonial postage, may be forwarded to such officers when removed upon service (whether at home or abroad), and be delivered to them for the same amount of Postage that would have been chargeable had they been delivered at their original address. In all other cases they are subject to the same regulation as ordinary redirected letters. Soldiers' and seamen's letters are not liable to any additional rate upon redirection.

#### **INLAND BOOK POST.**

Printed Books, Magazines, Reviews, Pamphlets, whether British, Colonial, or Foreign; Maps, Prints, Paper, Vellum, Parchment, &c., may be transmitted by Post, within the United Kingdom at the following rates:—

1. For each packet not exceeding 4 ounces, 1d.; exceeding 4 ounces, and not exceeding 8 ounces, 2d.; exceeding 8 ounces, and not exceeding 1 lb., 4d.; exceeding 1 lb., and not exceeding 1½ lb., 6d., and so on, 2d. being charged for every additional half-pound or any less weight. 2. The postage must be prepaid in full by means of postage stamps affixed outside packet or its cover. 3. Every packet must be sent either without a cover, or in a cover open at the ends or sides. 4. If the postage paid on the packet amount to as much as 4d., it may contain any number of separate books or other publications, prints, or maps, and any quantity of paper, parchment, or vellum (to the exclusion, however, of letters, whether sealed or open); and the books or other publications, prints, maps, &c., may be either printed, written, or plain, or any mixture of the three. Further, all legitimate binding, mounting, or covering of a book, publication, &c., or of a portion thereof, will be allowed, whether such binding, &c., be loose or attached, as also rollers in the case of prints or maps, markers (whether of paper or otherwise), in the case of books, and, in short, whatever is necessary for the safe transmission of literary or artistic matter, or usually appertains thereto. 5. But if the postage paid be less than 4d., the packet must consist exclusively of printed matter, without restriction, however, either as to the number of publications or separate sheets, or as to whether they are bound or unbound. 6. A book packet, whatever may be the postage paid thereon, must not contain any letter, closed or open, or any enclosure sealed or otherwise closed against inspection, nor must there be any letter, or any communication of the nature of a letter, written or printed in any such packet or on its cover. 7. No book packet can be received, if it exceeds two feet in length, width, or depth. 8. Any packet, which shall not be open at the ends or sides, or shall have any letter, or any communication of the nature of a letter, written or printed in it or upon its cover, will be charged with the "unpaid" or double letter postage. 9. If a packet be found to contain any letter, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorized enclosure, the letter or enclosure will be taken out and forwarded to the address on the packet, charged with full postage, as an unpaid letter, together with an additional rate of fourpence;

and the remainder of the packet, if duly prepaid with stamps, will then be forwarded to its address. 10. If a packet be not sufficiently prepaid with stamps, according to its weight, but nevertheless bear a stamp of the value of one penny, it will be forwarded, charged with the deficient Book postage, together with an additional rate of fourpence; but any packet, which shall have no postage stamp, will be charged with the unpaid letter postage according to its weight. A Book packet may be registered on which the ordinary postage is prepaid by stamps, together with a registration fee of sixpence.

### COLONIAL BOOK POST.

Printed Books, Magazines, Reviews, Pamphlets, &c. (whether British, Colonial, or Foreign), may be sent to the British West Indies, Bermuda, Canada, Nova Scotia, New Brunswick, Prince Edward Island, Newfoundland, Malta, Gibraltar, Ionian Islands, St. Helena, Gold Coast, Cape Town, South Australia, Western Australia, New South Wales, New Zealand, at the following rates:—Not exceeding  $\frac{1}{2}$  lb., 6d.; exceeding  $\frac{1}{2}$  lb., and not exceeding 1 lb., 1s.; 1s. being charged for every lb. or fraction of a lb.; and to the East Indies, Ceylon, Mauritius, Hong Kong, at the following rates:—Not exceeding  $\frac{1}{2}$  lb., 8d.; exceeding  $\frac{1}{2}$  lb., and not exceeding 1 lb., 1s. 4d.; 1s. 4d. being charged for every lb. or fraction of a lb. Provided, however, that the following conditions be observed:—1st, Every such packet must be sent without a cover, or in a cover open at the sides or ends. 2d, It must not exceed two feet in length, breadth, or depth. 3d, It must be prepaid, by affixing outside the packet or its cover the proper amount of stamps.

A book packet may contain any number of separate books, publications, prints, almanacs, or maps, and any quantity of paper, parchment, or vellum (to the exclusion of letters, whether sealed or open); and the books, maps, paper, &c., may be either printed, written, or plain, or any mixture of the three.

The name and address of the sender, and any words not in the nature of a letter, may be written or printed upon the envelope or cover of the packet, in addition to the name and address of the person to whom it may be forwarded.

The books, &c., may be in any binding, mounting, or covering, whether such binding, &c., be loose or attached. In the case of prints or maps, rollers may accompany them; and markers, whether of paper or otherwise, may be sent with books or other printed papers.

If a book packet be found to contain any enclosure which is sealed or otherwise closed against inspection, or any letter, whether sealed or not, the letter or other enclosure will be taken out and forwarded to the address on the packet, charged with full postage as an unpaid letter, together with an additional rate, equal the amount chargeable on a book not exceeding half a pound in weight. The remainder of the packet, if duly prepaid, will be forwarded without any extra charge.

If a packet be not sufficiently prepaid, according to its weight, but nevertheless bear postage stamps of the value of a single book rate, it will be forwarded, charged with a deficient book postage, and an additional book rate as a fine.

In the event of a book packet being posted altogether unpaid, or paid less than a single rate, it will be detained, and sent to the Dead-Letter Office.

No book packet, exceeding the weight of three pounds, can be sent to the East Indies or to New South Wales; but on books, &c., addressed to any of the other Colonies above enumerated, the Postage for heavier packets will increase by two rates of postage for every pound or fraction of a pound.

Book packets can only be forwarded to the above British Colonies and possessions by British or Colonial Mail Packets, excepting in the case of Cape Town, New Zealand, and St. Helena, to which places (there being no direct packets) books may be forwarded by private ship.

In no case can a book packet be sent to the Colonies (except at the letter rate of postage) through a foreign country.

### FOREIGN BOOK POST.

Printed Books, Periodicals, other than registered Newspapers, Pamphlets, sheets of Music, Catalogues, Prospectuses, &c., notices of every kind may be sent to France or Algeria, or where they are conveyed by the French Mediterranean packets, to any of the places in Turkey, Syria, and Egypt, at which France maintains post-offices, or to any of the following countries and places, the correspondence for which is forwarded as a rule through France, viz.:—Baden, Bavaria, Greece, Lucca, Majorca, Minorca, Modena, the Papal States, Parma, Placentia, Sardinia, Two Sicilies, Spain, Switzerland, Syria, Tripoli, Tunis, Tuscany, Venetian Lombardy, and Wurtemberg, as addressed to any other foreign country, and *especially directed to be forwarded via France*, at the following rates for each packet:—Under 4 ounces 3d.; above 4 ounces, and not exceeding  $\frac{1}{2}$  lb., 6d.; above  $\frac{1}{2}$  lb., and not exceeding 1 lb., 1s., &c., 6d. being charged for each additional  $\frac{1}{2}$  lb.

The following regulations must be strictly observed:—1. Every packet must be sent without a cover, or in a cover open at the sides or ends. 2. There must be no enclosure except printed papers. 3. There must be no other writing or marks upon the printed papers than the name and address of the person to whom they are sent, nor anything upon the cover but such name and address. The postage must be prepaid.

The following is a list of the places in Turkey, Syria, and Egypt, at which France maintains post-offices, viz.:—Alexandria, Jaffa, Beyrout, Tripoli in Syria, Latakia, Alexandretta, Messina, Rhodes, Smyrna, Mytelene, Dardanelles, Gallipoli, and Constantinople.

Books, Magazines, &c., may be sent to the British forces serving in Turkey, the Black Sea, Greece, and Heligoland, at the same rates, and under the same regulations, as the Inland Book Post—which see.

Printed Books, Magazines, Reviews, and Pamphlets (whether British, Colonial, or Foreign) may be sent to Monte Video by packet, at the following rates:—For each packet not exceeding  $\frac{1}{2}$  lb., 6d.; exceeding  $\frac{1}{2}$  lb., and not exceeding 1 lb., 1s.; 1s. being charged for every lb. or fraction of a lb. Provided, however, that the following conditions be observed:—1st, Every such packet must be sent without a cover, or in a cover open at the sides or ends. 2d, It must contain a single volume only (whether

Printed Book, Magazine, Review, or Pamphlet). 3d, It must not exceed two feet in length, breadth, or depth. 4th; It must have no writing or marks upon the cover, or its contents, except the name and address of the person to whom it may be sent. 5th, The Postage must be prepaid in full, by affixing outside the packet or its cover the proper amount of stamps.

Periodicals, unstamped, and not of daily publication, and Pamphlets, if under 16 oz. in weight, and printed in the language of the country from which they are sent, and containing only a single number of any periodical work, or a single Pamphlet in one cover, may be forwarded to, or received from, the United States, Prussia, Holland, Belgium, Denmark, and Hamburg; Bremen, Lubec, and Oldenburg, at the following rates, which must be prepaid when sent from this country:—Not exceeding 2 oz., 1d.; above 2 and under 3 oz., 6d.; above 3 and under 4 oz., 8d., &c., 2d. being added for every additional oz. Pamphlets (not being periodicals), when sent to the United States, must not exceed 8 oz.

*The following Instructions have been addressed to all Postmasters, and are strictly acted upon:—*

“GENERAL POST-OFFICE.—On and after 1st January, 1845, should any Letter or Packet be tendered at your Office, which you may ascertain to contain, or which you have every reason to believe contains any of the following articles, viz.:—Any Glass or Glass Bottle; any Razor, Scissors, Knife, Fork, or other Sharp or Pointed Instrument; any Leeches, Game, Fish, Flesh, Fruit, Vegetables, or other perishable substance; any Bladder or other Vessel containing Liquid; or any article, matter, or thing whatsoever, which might, by pressure or otherwise, be rendered injurious either to the Officers of the Post-office, or to the contents of the Mail Bags, you will refuse to receive such Letter or Packet.

“In the event of any Letter or Packet being taken in by you, and you do not until afterwards discover that it contains any article as above described, or should any such Letter or Packet be deposited in the Letter-Box, you will not forward it on to its destination, but you will detain it in your office, and inform me by the first Post of the circumstances, stating the precise address of the Letter or Packet, and its contents, or what you suppose them to be, when proper steps will be taken in this department in the case, and you will be instructed in what manner to dispose of the Letter or Packet.

“Should any Letter or Packet, containing any article as before-mentioned, not be discovered by the Postmaster at whose office it may be posted, but be forwarded on to its destination, the Receiving Postmaster to whose town it may be addressed, upon discovering, or having every reason to believe, that its contents are such as those alluded to, will not send it out for delivery, but will detain it in his office, reporting the circumstance by the first Post, and stating the nature of its contents, when he will be duly instructed in what manner to dispose of it.”

**TRANSMISSION OF PERIODICAL PUBLICATIONS BY POST WITHIN THE UNITED KINGDOM.**

All Periodical Publications, including Newspapers, which shall be published in the United Kingdom, at

intervals not exceeding thirty-one days, and which shall bear a stamp or stamps denoting the stamp duty, of the kind hitherto confined chiefly to Newspapers, may be transmitted and re-transmitted through the Post within the United Kingdom free from postage, under the following Regulations, viz.:—

1. They will be subject to the same restrictions, with regard to the number of sheets and superficial extent, as are now applicable to newspapers properly so called. These restrictions are shown in the following Table:—

Amount of Stamps impressed on this Publication.	Maximum number of Sheets.	Maximum superficial extent of letter-press on one side.
One Penny.	Two.	2295 inches.
Three Halfpence.	Three.	3443 “
Twopence.	Four.	4591 “

No publication, or portion thereof, will be allowed to pass through the post, unless it bear at least a stamp of the value of one penny.

2. The title and date of the publication must be printed at the top of every page.

3. The publication must be folded in such a manner that the whole of the stamp or stamps denoting the full duty shall be exposed to view, and be distinctly visible on the outside.

4. It must not be printed on pasteboard, or card-board, or on two or more thicknesses of paper pasted together, nor must any pasteboard, cardboard, or such pasted paper be sent with it as a back or cover thereto, or otherwise.

5. It must be posted within fifteen days from the date of publication.

6. It must either have no cover, or a cover open at the ends.

7. It must contain no enclosure.

8. It must have no writing or other mark thereon, but the name and address of the person to whom it is sent, nor anything on the cover but such name and address, the printed title of the publication, and printed name and address of the publisher or vender who sends it.

9. If the publication be addressed to any person within the free delivery of the place where it is posted, it will be liable to a postage of one penny, which must be prepaid by affixing a postage stamp. If posted unpaid it will be charged twopence.

10. If any of the above regulations be disregarded, the publication will be detained for examination till the next mail. If it is found that the irregularity consists merely in not folding the paper, so as to expose the stamp or stamps, a postage of one penny will be charged, in addition to any other postage to which the publication, if properly folded, would have been liable. In case of any other irregularity, the publication will be dealt with in accordance with the regulation applicable to the Book Post.

11. Unstamped publications, or stamped publications which have been issued more than fifteen days, can be forwarded within the United Kingdom, and to most of the Colonies, under the regulations of the Book Post.

12. Newspapers and other periodicals published in the islands of Guernsey, Jersey, Alderney, Sark,

and the Isle of Man, will be subject to the same regulations as those which are published in other parts of the United Kingdom.

#### NEWSPAPERS FROM THE BRITISH COLONIES

are delivered free of Postage at any place within the British dominions. Those for persons who have removed may be forwarded by Post, free of charge, provided they not been opened at the place to which they were originally addressed.

#### TRANSMISSION OF NEWSPAPERS TO BRITISH COLONIES AND FOREIGN COUNTRIES.

It is not necessary that Newspapers sent abroad, whether to the British Colonies or to Foreign Countries, should bear the impressed stamp (the old Newspaper stamp); but a postage of One Penny must be prepaid (either by means of a Postage Label or in money) on every Newspaper sent to a British Colony, with additional postage when the Newspaper passes through a Foreign Country; but before any Newspaper can be so forwarded, it is requisite that the proprietor or printer shall have registered it at the General Post-Office, London, for transmission abroad.

In the transmission of Newspapers abroad (whether to the Colonies or Foreign Countries) the use of the impressed stamp has entirely ceased; it will neither be required nor will it count as postage, as it will be presumed that where it is employed, it has already served for the transmission of the Newspaper in the United Kingdom.

From these regulations it will necessarily follow—1st. That every Newspaper going abroad must have the postage to which it is liable represented by adhesive Postage Stamps, or paid in money. 2nd. That a Newspaper, whether published with or without the impressed stamp, will be placed in the same position for transmission abroad. 3rd. That the impressed stamp will apply only to transmission and retransmission within the United Kingdom.

Newspapers sent abroad must be posted within fifteen days from the date of publication, either in no cover, or a cover open at the ends, and must contain no enclosure.

Newspapers may also be forwarded to the Colonies, by private ships, for a postage of One Penny each, and to foreign countries for a postage of Twopence each, to be paid when posted, *under the same regulations as to date, &c.*

For days of despatch and rates of postage, see the Alphabetical List of Foreign Countries.

#### NEWSPAPERS FROM ABROAD.

Newspapers arriving from British Colonies or foreign parts, to which they are despatched free, are delivered free of postage. From places abroad to which they are *not* despatched free, they are charged on delivery, Twopence each; excepting those brought by the closed mail through France, which are charged Threepence or Fivepence each. *All Newspapers must be printed in the language of the country from which they are sent.*

#### PRICES CURRENT AND COMMERCIAL LISTS.

Printed PRICES CURRENT, having obtained the sanction of the Lords of the Treasury, pass through the Post-Office to the Colonies and Foreign Parts at One Penny each, provided they contain simply the names and prices of articles; the names and addresses of the parties dealing in such articles must

be excluded. Each copy to be made up in the same form as a Newspaper, with covers open at the end.

The title of the publication must be written or printed immediately above the address; and any other writing than such address, name, initial, or mark, for reference of any kind, calculated to convey information as to the party by whom such publication is forwarded, will subject the same to full letter rates of Postage.

Every Price Current to be forwarded within seven days after each publication; and no one can be forwarded a second time without being charged with full letter Postage.

Printed PRICES CURRENT and COMMERCIAL LISTS from the British Colonies, France, Belgium, and Holland, are now admitted into the United Kingdom at the reduced rate of 1d. each, whether conveyed by Packet or by Private Ship.

Printed PRICES CURRENT and COMMERCIAL LISTS from any foreign country except France, Belgium, Holland, Prussia, and China, are admitted into the United Kingdom at the reduced rate of 2d. each.

Printed PRICES CURRENT and COMMERCIAL LISTS from the British Colonies, passing through the United Kingdom, are liable to a postage of 2d. each, to be paid at the time of being posted.

PRICES CURRENT and COMMERCIAL LISTS from the British Colonies, passing through France, Belgium, or Holland, to the United Kingdom, are liable to a Postage of 2d. each.

Printed PRICES CURRENT and COMMERCIAL LISTS to China, *via* Southampton, 2d. each; *via* Marseilles, 3d. each. From China, *via* Southampton, 3d. each; *via* Marseilles, 5d. each.

#### REGISTRATION.

*Letters, whether containing coin or not, can be registered on payment of a fee of 6d., in addition to the Rates of Postage, Inland, Colonial, or Foreign.* On those to France, or passing through France, at double the usual rates of Postage. On those to Prussia, or passing through Prussia, the Prussian Registration Fee of 3d. must be paid in addition to the British. On those to Russia and Poland, *via* Belgium, an additional rate of 3½d. under ½ oz., 7d. under 1 oz., &c. Thus, for a letter not exceeding ½ oz., the charge will be ordinary Postage, 11½d.; additional Postage, 3½d.; British Registration Fee, 6d.; Prussian do., 3d.; total, 2s. Book Packets may be registered on which the *ordinary Book Postage* is paid, together with a Registration Fee of 6d. A printed acknowledgment will be given to any person registering a letter. Registered letters will be taken at the *Bar Window and the Receiving-houses within half an hour of the closing of the Box for the particular Mail* by which they are to be despatched. Letters for Registration addressed to places *within the United Kingdom*, must be paid by affixing a sufficient number of Stamps, and the Registration Fee must be paid in Stamps; when addressed to *parts abroad*, they may be paid either in money, or by means of Postage Stamps.

In case of Foreign, Colonial, or Ship Letters, it must be clearly understood that Registration can only extend to the port of shipment. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the

French Post-Office undertaking to provide for their security till they shall have been delivered, *if addressed to France*, and as long as they remain in the French territory, *if passing through France*.

The arrangements for carrying out the system of registration have been made with the view of insuring the safe delivery of Registered Letters. On their delivery, the parties to whom they may have been addressed will be required to acknowledge, in writing, their receipt. *Parties transmitting Bank Notes, Bank Post Bills, Drafts, Jewellery, &c., should invariably secure their transmission by Registration; and persons having occasion to send by post small sums, are recommended to make use of*

#### THE MONEY ORDER OFFICE,

which is open *every week-day, fast-days excepted*, from 9 a.m. till 5 p.m. The charge for such Orders is 3d. on sums not exceeding *two pounds*, and 6d. on sums between *two and five pounds*. No Order will be given for sums beyond this amount; but if the sum to be transmitted exceeds *five pounds*, as many Orders may be taken out as will make up the sum to be sent.

In cases where the personal attendance of the party to whom an Order is payable is inconvenient, if the

Order is received (his or her name written in full), and the person presenting the Order be able to give full information as to the Christian name, or the initial of the Christian name and surname of the person who transmitted the money, payment will be made, but not unless these conditions are complied with. Orders will not be granted in favour of any person unless the Christian name, or the initial of the Christian name, of such person can be given by the party obtaining the Order. Orders cannot now be granted in favour of the "Secretary" of any Society, the "Publisher" of a paper, &c.

A Money Order must be presented for payment before the end of the Second Calendar Month after that in which it was issued (for instance, if issued in January, it must be presented before the end of March), otherwise a new order will be necessary, for which a Second Commission must be paid; and if it be not presented for payment before the end of the Twelfth Calendar Month after which it was issued, the money will not be paid at all.

After an Order has been once paid, by whomsoever presented, the office will not be liable to any further claim.

The Towns upon which Money Orders can be drawn are marked in the lists.

### LIST OF POST TOWNS AND SUB-OFFICES IN SCOTLAND,

WITH THE HOURS AT WHICH THE BOX IS CLOSED AT THE GENERAL OFFICE, GLASSFORD STREET.

The Newspaper Box closes 5 minutes earlier for the Mails marked in the list 7.20 p.m., and 30 minutes later for those marked at 10.15 p.m.

*When two places are mentioned, reference must be made to the latter for the Hours of Despatch.*

The Offices upon which Money Orders can be granted have the letter m prefixed.

## COLONIAL AND FOREIGN MAILS.

A single rate of Postage is given for each country.—See also Alphabetical List, p. 37.

There being no bags despatched for London on Saturday, when any of the dates for the London, Southampton, or Dover Packets fall upon that day, reference must be made to the Alphabetical List for information whether the letters should be posted on the previous Friday, or on the ensuing Sunday.

*Letters for Foreign Countries, the prepayment of which is required, when put into the unpaid box, or left at the office with less than the full postage, are sent to the Dead Letter Office, and returned to the writer, when his address can be ascertained.*

### MAILS BY PRIVATE SHIPS.

SHIP LETTERS.—The rate to Foreign Countries, when conveyed by private ship, is 8d. under half an ounce; and to our own Colonies 6d. under half an ounce.

Letters for any Foreign Port or Country, to which there are regular packets, will not be forwarded by Merchant Vessels, unless so directed.

Owners, Consignees, or Charterers (resident in the United Kingdom), and the Owners, Consignees, and Shippers of Goods on board vessels inward-bound, are entitled to receive their letters free from sea postage, to the extent of six ounces. In case of vessels from Ceylon, Mauritius, the East Indies, and the Cape of Good Hope, the privilege extends to twenty ounces in weight. The Owner, Charterer, or Consignee, must be described as such in the address; and in case of Owners, Shippers, or Consignees of Goods, it must appear by the ship's manifest that they have goods on board.

A penalty of Ten Pounds is incurred by parties *falsely* superscribing a letter as Owner, Shipper, Charterer, or Consignee.

## SHERIFF SMALL DEBT COURTS,

For the recovery of Debts not exceeding £12, sits every Monday and Thursday at 10 o'clock forenoon for Glasgow, and on Tuesdays and Fridays for Lanark, Hamilton, and Airdrie, at 11 o'clock forenoon, and have jurisdiction over the whole of Lanarkshire. The Defenders are cited before this Court on an inducia of six days: warrants to arrest on the dependence are issued: the decree may be extracted, and arrestments used upon it instantly; and it may be enforced, in all cases, by poinding, sale, and imprisonment, when above £8. 6s. 8d. of the debtor's effects, ten free days after its date. In case of the debtor removing to a different county, the decree

may be enforced against him there, on being endorsed by the Sheriff-Clerk of the county to which he removes. Judges—Sheriff and Sheriff-Substitutes of the County.

Note.—The Act authorising Imprisonment for Small Debts expired in 1840 for sums under £8. 6s. 8d., excepting claims of alimant.

## FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

Debts may be recovered in a summary manner before the Justice of Peace Court, to the extent of £5; and before the Sheriff Courts, to the extent of £12.

The first step is set forth in a complaint or libel, agreeably to a prescribed form, (the Clerks of Court will provide the necessary forms,) the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorise; but in no case by persons practising the profession of the law, or by Officers of Court, without special leave of the Court or cause shown.

If the defender fail to appear after being cited, he will be held as confessed, and judgment will be given against him.

But when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a rehearing, on consigning the sums decreed for in cases before Justices, and in cases before Sheriff by consigning 10s. of expenses, on applying within three months from date of charge.

If decree in absence be given against the pursuer, he may, within one month, obtain a rehearing on consigning 2s. 6d., if the case be before the Justices; and the expense decreed for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned upon the pursuer or defender offering a suitable excuse, or if any witness be absent.

If decree be given against the defender, diligence may proceed against him by arrestment instantly; and by poinding, sale, and imprisonment, if above £8. 6s. 8d., at the end of ten days, before the Sheriff; and by poinding and sale instantly, before the Justices.

If decree be given against the defender in his absence, poinding and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decreed for by instalments.

The decrees of the Sheriff and of the Justices may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestment used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolvitor or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the Sheriff, for making

effectual arrestments; but in such actions both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary; or, if there be no Circuit Court, by the High Court of Justiciary at Edinburgh, on the ground of corruption, or malice, or oppression on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable, by a reduction before the Court of Session, on the ground of malice and oppression on the part of the Justices, and such reduction will only be competent for one year, and finding caution for costs.

No person is exempt from the jurisdiction of Justices or Sheriffs in such cases, by reason of privilege as a member of the College of Justice.

How they have hitherto been supported, and the means of their present subsistence of whatever kind, whether certain or precarious. Applicants to appoint some person in town to call on the secretary, 45 West George Street, on the first Tuesday of April, for answers to their petitions. The society are also trustees on the late Miss Janet Paisley's Trust Fund, for the benefit of the daughters of deceased clergymen of the Church of Scotland.

**GLASGOW RELIGIOUS FRIENDLY.**

This society was instituted 1st October, 1827, on the principles laid down in the Highland Society's Report, and the Reports of the House of Commons, with an addition of 10 per cent. upon their tables; but having found this insufficient to sustain the society, it was agreed on 1st July, 1846, that a reduction of the sick allowance should be made after nine months' continued ailment, with a further increase of 10 per cent. upon contribution tables. It has two departments, viz., 1st, The sick allowance, with a stated superannuation allowance, from the age of 65 to the end of life. 2d, Allowance at death; to any of which the members pay in proportion to their ages and the benefits required; and females are admissible to the latter department, the two being kept perfectly distinct.

W. Angus, 113 Rottenrow St., President; David Sutherland, Morrison's court, 108 Argyle St., Treasurer; William Sutherland, 5 M'Aslan St., Secretary.

Meet in John Street United Presbyterian Church Session-house, on the first Monday in Jan., m., March, May, July, Sept., and Nov., at eight o'clock, p.m., to receive contributions and enter new members.

## GENERAL REGULATIONS.

1. The board is, in all cases, payable quarterly, and in advance.

2. The regular quarterly terms are—1st January, 1st April, 1st July, and 1st October. In regard to patients at and above the rate of 15s. per week, no part of the first quarter's board shall be returned, except in the event of the patient dying before the expiry of that period, in which case it shall be in the power of the weekly committee to allow the re-

turn of such proportion of the board as, under all the circumstances, they shall consider reasonable.

3. Patients have no claim for remuneration for their labour.

4. Every patient must be provided with proper apparel. An accurate list of every article brought with the patient must, on admission, be delivered to the steward, or principal attendant, to the superintendent of the ladies, or the matron, according to the house in which the patient is placed, and the name must be fully marked on each article. If any necessary part of dress should not be duly supplied, after eight days' intimation has been given that it is wanted, it will be furnished by the house, and the cost of it charged against the patient.

On applying to the physician, the patient will be carefully and expeditiously conveyed to the asylum, the necessary expenses being paid to the steward by the applicant.

Patients in the west house may be visited every lawful day between 10 and 12 o'clock; those in the east house, who are not paupers, on Mondays, between the same hours; and patients who are paupers, on Saturdays, also from 10 till 12 o'clock. Only those who are duly authorised can be admitted to visit patients.

The object of this institution is to afford assistance to natives, and widows and families of natives, of the city of Glasgow, who, from reverses of fortune, or otherwise, have been reduced to necessitous circumstances; though not such casual or trivial relief as is properly obtained from the funds destined by law for the support of the poor, but rather such more ample and efficient assistance as may tend to secure comparative ease and independence to the parties on whom it is bestowed. It is composed of parties born within the Royalty, or Parliamentary limits of the Burgh, though donations are received and invited from those who, though not natives, have been identified, by long residence or commercial connections, with the interests and prosperity of the city, and who, though not members, are enrolled in a separate class, titled donors. Legacies and bequests will also be received and are invited from the opulent and generous, either at home or abroad, who approve of its object. A payment of £5. 5s., either in one sum at entry, or by five successive yearly instalments of £1. 1s., constitutes membership. Members, and widows and families of members, are entitled to a preference in the distribution of the funds.

His Grace the Duke of Argyll, Patron; Walter Buchanan, Preses; George Stevenson, Treasurer; Duncan Turner, Secretary; Peter M'Kenzie, Wm. Couper, Alexander M'Donald, John M'Donald, Jas. MacLellan, H. C. Dixon, Alexander Fyfe, William Anderson, Walter Mackenzie, and Thomas Gildard, Ordinary Directors.

## PERTHSHIRE CHARITABLE.

INSTITUTED 22D DEC., 1835.

The principal object of this Society, the qualification for membership of which consists of a small sum of entry-money, is to afford relief to persons in indigent circumstances, natives or widows of natives of Perthshire, and their children resident in Glasgow and the neighbourhood; or to natives of the county passing through the city unexpectedly falling into distress.

Sir James Campbell of Stracathro, Patron; Jas. Craig, President; Peter M'Ara, late President. Directors, James Campbell, jun., A. B. M'Grigor, James Stewart, Charles Thomas, Forrest Frew, John M'Gregor, John Morison, David Yuile, David Tainsh, James Blair; Treasurer, James Wylie Guild, 59 St. Vincent Street; Secretary, Hugh Moncrieff, 45 West George Street.

## MITCHELL'S MORTIFICATION.

The Lord Provost and Magistrates, Patrons.\*

This charitable fund was bequeathed by William Mitchell, a native of Glasgow, who died in London, 1729. The patronage is now vested in the Magistrates of Glasgow. The annual accumulation from the mortification, amounting to £113. 1s. 9d., is disbursed in sums not exceeding £10, to decayed Burgesses and Guild brothers, their widows, and unmarried females whose fathers were merchants and Guild brothers.

## GLASGOW, GALLOWAY, AND DUMFRIES-SHIRE SOCIETY.

Andrew Macgeorge, President; John M'Dowall, Vice-President; David Hope, Treasurer; Andrew Macgeorge, jun., Secretary. John M'Kie, jun., Charles Cairns, William Mackinlay, James Reid, John Sloane, William Murray, W. W. Watson, James Keyden, John Macharg, William Graham, David Ferguson, John Ferguson, Directors.

The principles of this Institution are similar to those of the Highland Society—the education of boys of eight years or upwards, whose parents (one or both) are natives of the above counties, and who are not in circumstances to afford it. John Craig, F.E.I.S., Teacher. The number of scholars at present on the roll is 32.

**M'ALPINE'S MORTIFICATION.**

Founded in 1811, by Mrs. M'Alpine, who conveyed to Trustees her property for the maintenance of poor men and women of the description given in her will—the former receiving annually £10, and the latter £5. The Trustees are, the Deacon Convener, and the Ministers of eight of the Established Churches.

Donald Cuthbertson, LL.B., Factor.

**WESTERN COLLEGIATE AND COMMERCIAL ACADEMY,**

ALBANY PLACE, 362 SAUCHIEHALL STREET.

The above Institution provides mainly for a thorough English and Commercial Education, into which the Classical element may or may not enter, as the parents or guardians of pupils may think fit.

The course of instruction in the Latin language embraces a period of two, or at most three sessions, one hour per day, and is conducted so as carefully to subserve the English and Commercial course. Thus, pupils not intending to follow any of the learned professions may draw all the advantages to be gained from a study of the language, as aiding the acquisition of a knowledge of Natural Science in the higher branches of an English Education, and enabling the Commercial pupil all the more easily and surely to master the Modern Languages.

Mr. J. Macpherson, Principal of the Institution, is responsible to parents and guardians for the educational management, and all other working arrangements towards carrying out effectively the course of instruction selected for pupils.

DEPARTMENTS.—English, Commercial, Classical, Mathematical, Foreign Languages, Fine Arts.

BRANCHES.—Reading and Elocution, Grammar and Composition, History and Geography, Original Composition and Logic.—Writing, Arithmetic, and Book-keeping.—Algebra and Geometry, Plane and Spherical Trigonometry.—Latin, Greek, Antiquities, &c.—French and German, Spanish and Italian.—Drawing and Painting, Piano-Forte and Singing, Fencing and Gymnastics, Dancing and Calisthenics. The "Western Collegiate" is arranged for re-

ceiving Young Ladies, from five years of age and upwards; and while in all the departments a separate division is reserved for them, their educational course is the same as that of the Young Gentlemen.

An advanced finishing course, exclusively for young ladies, is formed yearly, early in the session, by the several masters in the various departments.

The session opens 1st August, and closes 15th June. Quarter-days—1st August, 19th October, 7th January, and 20th March.

The first division of the Elementary Latin Class is formed in August; the second division in October.

An English Alphabet Class is formed each quarter-day.

**EVENING CLASSES.**—The Winter Session for students and young gentlemen in business commences 19th October.

Prospectuses, containing terms, &c., may be had of the principal booksellers, or at the Academy.

### STIRLING'S PUBLIC LIBRARY,

48 MILLER STREET.

Founded in 1791 by the late Walter Stirling, merchant in Glasgow, who bequeathed his own collection of books, and certain other property, to found and endow a Public Library, to be open, free of charge, to the inhabitants of Glasgow.

On the first institution of this Library, life subscribers only were admitted to the privilege of taking out any of the books; but in the year 1848, the Directors, with a view of making the Library more generally useful, agreed to admit also annual subscribers, who enjoy the same advantages as the life subscribers.

The library of Mr. Stirling, which formed the nucleus of this collection, consisted of from 600 to 700 volumes, and, besides the books purchased by the directors, the Library has received many valuable additions from various donors, among whom may be particularly mentioned the late William Jamieson, jun., and James Bogle, Esqrs.—The number of volumes in the Library is now about 13,000.

The Library is open daily from 10 to 4, and 7 to 9, excepting Saturdays, when it is closed at 12.

Life Subscription, £5 5s. Annual Subscription, 15s. the first year, and 10s. 6d. yearly afterwards.

In order to prevent, as much as possible, chimneys taking fire, the magistrates recommend to the inhabitants to get their chimneys swept every six weeks, and not to employ or admit to their houses, or to the roof thereof, any chimney-sweeper not having a badge, or who refuses to produce the same when demanded. The magistrates also recommend to the inhabitants to keep the hatchway, or other access to the roof of their houses, properly secured, and not to intrust the key to any chimney-sweeper who has not a badge, in order to prevent theft and destruction to property.

# BRITANNIA

## LIFE ASSURANCE, REVERSIONARY INTEREST, AND ENDOWMENT COMPANY,

No. 1 PRINCES STREET, BANK, LONDON;

*And for Glasgow, Paisley, Greenock, and Neighbourhood,*

**Nos. 20 Buchanan Street and 126 Renfrew Street, Glasgow.**

ESTABLISHED AUGUST 1, 1837.

EMPOWERED UNDER A SPECIAL ACT OF PARLIAMENT.

CAPITAL, ONE MILLION STERLING.

GREAT ADVANTAGES OF THIS INSTITUTION.

**T**HE Rates of Premiums are on the lowest Scale consistent with stability, and so varied as to accommodate the views of every class of insurers.

This Institution is empowered under special Act of Parliament, and so constituted as to afford the benefits of Life Assurance in their fullest extent to Policy Holders, and to present greater facilities and accommodation than can be obtained in any similar Establishment. Increasing and decreasing Rates of Premium on a new and remarkable plan have been constructed, peculiarly advantageous for securing loans or debts. By the former mode, a less immediate payment is required on a Policy than in any other Office, and the Amount of future payment optional with the Assurer.

The following important improvements on the ordinary system of Life Assurance have been adopted by the Britannia Company, and are recommended to the particular attention of the public:—

Age of the Assured in every case admitted in the policy.

All claims payable in Three Months after proof of death, while other Offices take six Months to consider this momentous question.

Medical Attendants remunerated by the Company in all cases for their reports, by which an important saving is effected to parties insuring.

No charge made for Policies or Admission Fees.

Policies revived without fine within Twelve Months after expiration, on evidence of unimpaired health, without payment of the FINE demanded by other Offices.

Premiums may be paid Half-Yearly or Quarterly, and payments may be made to terminate after five, ten, or any other number of years required.

A Board of Directors in attendance Daily at Two o'Clock.

Thirty Days allowed for Renewal of Policies.

Ladies and others, to whom it may be inconvenient to attend at the Office, visited by one of the Medical Officers.

Assurances perfected on the same Day they are proposed.

EXTRACT FROM NO. 1.

Table of Equal Rates of Premium, which may be paid to this Company in any way most suited to the convenience of parties insuring:—

Age of the Assured.	Annual Premium required by old Offices sharing profits for Policy of £100.	The ordinary rate of the old Offices not sharing profits.	Reduced Premium of the Britannia Company	Saving per Cent. by insuring in the Britannia Company, equal to an immediate Bonus of 25 to 30 per Cent.
	£ s. d.	£ s. d.	£ s. d.	£ s. d.
20	2 3 7	1 18 6	1 12 5	0 11 2
25	2 8 1	2 9 0	1 16 0	0 12 1
30	2 13 5	2 4 6	2 0 8	0 12 9
40	2 19 10	2 16 1	2 6 9	0 13 1
50	3 7 11	3 6 0	2 15 1	0 14 0

This table exhibits at a glance a very important saving to the Insurer, fully adequate to insure AT ONCE one-third more principal sum than can be secured for the same Premium in Offices sharing Profits to be

realised, and in which it should be borne in mind, that should the life drop prematurely, no Bonus would have accrued; consequently, the whole extra Premiums charged above the Britannia Company's rate would have been sacrificed, without yielding any commensurate advantage to the Insurer.

The BRITANNIA COMPANY prefer giving a direct and immediate advantage to the public by a fair reduction of rates, rather than inviting those to become partners who can have neither leisure nor inclination to understand or investigate their own rights. These advantages may be observed in the following Scale, where the absolute saving to insurers in the Britannia Company is made to appear, supposing the sum to be insured One Thousand Pounds at any of the following ages:—

Age of the Assured.	The Annual Premium on £1000 in Offices dividing profits.	Sum Assured in the Britannia Office for the same Premium.	Certain and immediate Bonus secured in the Britannia Company on a Policy of £1000.

\*\* This table, as will be obvious from the following illustrations, presents New and Important Features in Life Assurance. (Vide the Company's Prospectus, which may be had gratis on application, either personally or by letter, to the Company's Agent as under.)

By this plan of Insurance the public are vastly inconvenienced, increased facilities afforded, and every possible contingency or disappointment anticipated for the protection of the Assurer, with less immediate payment for the first five years than in any other Office, and the amount of subsequent payments left optional with the Insurer, an important advantage not given to the Policy Holders of any other Company.

If the Life assured drops within the first period of five years, the Sum he receives is almost equal to a gratuity. If in the second, he derives still a considerable benefit; and if he should live even to the last period, he has, notwithstanding, made his Assurance on advantageous terms. Again, if the Assurer should become unable to advance his Premium, or that it is inconvenient for him to do so, he drops into the alternate scale—namely, a proportionate reduction of the sum assured, whilst it is only fair to remind him, that in other Companies adopting the increasing Rates of Premium, no such alternative exists. The insurers with Offices adopting that principle, are called upon without any excuse or consideration of circumstances, to advance their Premiums AFTER THE FIRST FIVE YEARS (when all accommodation has ceased), whether they are able to do so or not, otherwise their policies are forfeited, and all their previous payments lost to them for ever. The rate of reduction in the sum assured after the first five years, should the premium be not advanced, will appear by the following abstract, taking the sum assured at £1,000, the whole amount insured being payable by this Company, should death previously occur, without any deduction whatever:—

If the Insurer dies after the first period of five years, without increasing his Premium, it will be reduced one-eighth to.....£875, principal sum.  
 If he shall die after the second period of five years, without increasing, it will be reduced one-fourth to.....£750, ditto.  
 If he shall die after the third period of five years, without increasing his premium, it will be reduced three-eighths to.....£625, ditto.  
 And if he shall die after the fourth period of five years, without increasing his premium, it will be reduced to.....£500, ditto.  
 After this period, no further reduction can be made on the amount assured.

\*\* This Company assures the Lives of Officers and others travelling to, or residing in, any part of the world.

Emigrants to Australia and the Colonies may effect Insurances on their Lives at the lowest current rates, and every contingency affecting human life negotiated on equitable principles.

☞ The progressively increasing patronage enjoyed by the Britannia Company during the past years (no doubt induced by the many important advantages it affords) renders it an imperative duty on the undersigned

thus publicly to express his sincere acknowledgments to the public; and in soliciting a continuance of the same favours, he most respectfully begs to direct attention to the fact that, during the past years, the number of Policies issued have not been exceeded by any Life Office in the Kingdom.

\*\* Medical Officers (who are in constant communication with the Agent as under) have been appointed in the principal Towns throughout the Kingdom, with the view of affording the utmost expedition to Parties effecting Insurances, and to obviate the inconvenience of personal appearance at the Office.

The uniform promptitude and liberality observed in the adjustment of all claims on this Company, the extreme attention and expedition in effecting Insurances, guided by equitable and honourable principles, with the lowest and most accommodating rates of premium that stability can admit of, have deservedly obtained for this Institution such a decided preference over its numerous competitors.

Proposal Forms for effecting Insurances, Prospectuses detailing the many advantages of the Company, with every information respecting the Rates of Premium for Home and Foreign Insurances, survivorships, Joint Lives, and every other contingency affecting human life, may be had on application to

The income from the Premium Fund of this Company is nearly £110,000. per annum, and the investments exceed 37 per cent. of the sums insured.

Four-fifths, or 80 per cent., of the profits are assigned to policies every fifth year, and may be applied to increase the sum insured, to an immediate payment in cash, or to the reduction and ultimate extinction of future premiums.

One-third of the premium on insurances of £500 and upwards, for the whole term of life, may remain as a debt upon the policy, to be paid off at convenience; by which means £1,500 may be insured for the present outlay otherwise required for £1,000.

**LOANS.**

The Directors will lend sums of £50 and upwards, on the security of policies effected with this Company for the whole term of life, when they have acquired an adequate value.

**SECURITY.**

Those who effect insurances with this Company are protected by its large capital from the risk incurred by members of mutual societies.

**CLAIMS.**

Since the commencement of the Company upwards of £1,000,000 sterling has been paid in claims and additions to the sum assured.

Insurances without participation in profits may be effected at reduced rates.

The assured are not charged with Policy Stamp Duty.

N.B.—The attention of the public is invited to the 54th section of the Act 16 and 17 Victoria, cap. 34, by which an abatement of income tax is allowed on such portion of income (not exceeding 1-6th) as may be applied to the payment of premiums of assurance.

THE DIRECTORS of this COMPANY having endeavoured to perfect their system of LIFE ASSURANCE by the adoption of every improvement suggested by experience or observation, the arrangements, as they now stand, will be found to secure for Policy Holders every advantage consistent with sound principle.

The Participation Scheme, which was begun in 1840, has been very prosperous. Policies in connection with it are generally preferred for Family Provisions.

*The next Investigation is appointed to take place at 31st January, 1857, with a view to the declaration of Bonuses, in which all parties holding Policies of the Participating Class at that date will share.*

Assurances without Profits are issued on the most moderate scale of Premiums consistent with perfect safety. Policies of this description are most suitable for those who are interested to assure sums of definite amount at the smallest possible outlay.

*The Conditions endorsed on all Life Policies, now in course of being issued, are not surpassed in liberality by those of any Institution of equal standing.*

Prospectuses, with every information, and forms of proposal may be obtained at any of the Offices or Agencies of the Company.

## LIFE DEPARTMENT.

THE Directors of the NORTH OF ENGLAND INSURANCE COMPANY beg to call the special attention of parties about to effect Policies of Life Assurance to the following advantages offered by this Company:—

1. *Annual Bonuses.*—Bonuses are declared annually in April. The Bonuses already declared vary from one to eleven per cent. on the sums assured, and exceed, in some cases, 62 per cent. on the Premiums. *All Policies issued previous to 31st December will share in the whole year's profits next April.*

2. Profits allocated may be applied in augmentation of the sum payable at Death, or in reduction of the future Premiums, or may be paid to the assured by an equivalent in present cash.

3. *Moderate Rates of Premium.*—The same Premium required by the older Office for the Assurance of £1000 at age 25, will insure in this Office £1156 with Profits, or £1315 without such right of participation.

4. Policies purchased by the Company, and loans granted thereon, according to their acquired values.

5. Claims are payable three months after proof of death. When the sum assured is under £300, the sum is payable one month after such proof.

## FIRE DEPARTMENT.

During the year 1855, the NORTH OF ENGLAND issued nearly Two Thousand Five Hundred Fire Policies, covering Property to the amount of upwards of Two Millions and a Half sterling, and the revenue of this department for the year was nearly Eighteen Thousand Pounds.

Insurances are granted against Loss by Fire at the lowest rates commensurate with the nature and position of the property insured.

DIVISION OF PROFITS.

EXTRACTS FROM REPORT BY PETER HARDY, ESQ., ACTUARY, RELATIVE TO THE ASSETS AND LIABILITIES OF THE INSTITUTION, AS AT 31ST DECEMBER, 1855:—

It gives me very great satisfaction to be able to report to the Directors and the Members, that the Society is at this time in a most sound and prosperous condition, as will be best evinced by the Divisible Surplus on the 31st of December last. I can also give the Directors and Members assurance that the amount of profit divided has been fairly realized, and in no way includes future or anticipated profits.

THE FOLLOWING TABLE SHOWS THE SUMS ADDED TO POLICIES EFFECTED IN THE YEAR 1841:—

Age when Assured.	Sum Assured.	Annual Premiums.	Amount of Premiums Paid.	Bonus.	Per Cent. on Premiums Paid.
		£ s. d.	£	£ s. d.	
20	1,000	18 5 10	274	166 10 0	60·66
30	1,000	22 19 2	344	182 10 0	53·05
40	1,000	30 15 0	461	212 6 0	46·04
50	1,000	43 10 0	652	264 8 0	40·59

The system adopted by this Institution gives to the Assured every advantage Life Assurance is capable of affording; and the success with which it has been attended, arising from its extended connection, and the safe and liberal principles on which it is founded is sufficiently proved by the fact, that it has issued upwards of TWELVE THOUSAND POLICIES. It has now an Annual Income of £50,000, besides a large Accumulated Capital, the property of its members.

ADVANTAGES OF THIS OFFICE.

1. Entire profits belong to the Assured.
2. No lawsuits—disputes, if any, settled by arbitration.
3. Any sum may be assured, from £25 to £5000, payable to the Member himself on attaining any fixed age, or at once to his representatives, in case of earlier death.
4. Arrears may be paid up at any time, within twelve months upon production of certificate of health.
5. Policies indisputable, except for palpable fraud.
6. Loans are granted to the amount of the surrender value, without any other security than a deposit of the Policy. By this rule, the risk of Members losing the benefits of previous payments from temporary pressure of circumstances is almost entirely removed.
7. A lower rate of mortality than in any other office in Great Britain.
8. Liberty to travel or reside in any part of Europe, in Canada, and in the northern part of the United States, without extra charges.
9. No entry-money or other charge. Policy stamp paid by the office.
10. Parties Insuring with this Society can deduct the annual premium on their own or their wives' lives from the assessment made upon them for income tax.

N.B.—The Temperance and Public Sections are kept in separate classes, and will each receive their own profits.

Prospectuses, also copies of the Fifteenth Annual Report, and every information, may be had at the BRANCH OFFICES, and at the CHIEF OFFICES in Edinburgh, Glasgow, Aberdeen, Manchester, Liverpool, London, Dublin, and Belfast.

## LIFE DEPARTMENT.

**PARTICIPATING SCHEME.**—TWO-THIRDS OF THE PROFITS, WITHOUT ANY DEDUCTION FOR CHARGES OF MANAGEMENT, ARE DIVIDED QUINQUENNIALY AMONG THE ASSURED.

The following Table shows the Additions made to Policies of £1000 which have been in existence Seventeen complete years, from 1st August, 1834:—

Age when Assured.	Additions.	Total Sum Payable in case of Death.
30	£250 1 6	£1250 1 6
35	254 2 6	1254 2 6
40	259 6 11	1259 6 11
45	267 11 10	1267 11 10
50	281 12 7	1281 12 7

Thus averaging upwards of One and a Half per Cent. per annum, on Policies which have been in existence from the commencement of the Profit Scheme in 1834, a period of Seventeen years.

The Bonus may be applied, at the option of the Assured, in any of the following ways:—

- I. It may be added to the Sum Assured; or
- II. Applied in Reduction of future Premiums; or
- III. Surrendered for its present value in Cash.

NO ENTRY-MONEY IS CHARGED.

CLAIMS ARE PAID WITHIN THREE MONTHS after satisfactory evidence is produced to the Directors of the death of the party insured.

LIBERAL SUMS are allowed for the SURRENDER OF POLICIES after THREE PREMIUMS have been paid.

PARTIES are allowed to pass and repass, in time of peace, from one part of Europe to another, by sea or land, without payment of additional Premium, or the Policy being subject to forfeiture.

LIFE POLICY STAMPS paid by the Company.

NO EXTRA PREMIUM charged for residence in Australia, New Zealand, Canada, or the United States of America north of the 38° of north latitude.

## FIRE DEPARTMENT.

**P**ERSONS Assured for the whole term of Life, for £100 and upwards, will have an *addition* made to their Policies every *fifth* year (instead of every seventh as heretofore), or an *Equivalent Reduction* will be made in the future payments of Premium, at the option of the Assured.

Policies may also be effected for the whole term of Life, by payments yearly or half-yearly, also by a limited number of yearly payments, a mode of Assurance which originated with this Company in 1816.

*Assurances for short periods* may now be effected in this Office at considerably reduced rates of Premium.

The *next valuation* will be made at Christmas, 1859; and Policies effected before that date will participate in proportion to the time they may then have been in force.

The following statement of *Sums paid* on various Policies (printed with the consent of the Representatives of the Claimants), will, it is submitted, confirm the very satisfactory result of the principle on which the Company's business is conducted, and exhibits the *Bonus* or *Additions* which attached thereto respectively, viz. :—

The Directors have the satisfaction of stating—

That the **INCOME** of this Branch for the year 1851 exceeded £166,000.

That the **INVESTMENTS** for the Life-policy holders now amount to £1,382,108.

And as evidence of the advantage to Families of Life Assurance,

That the Company has disbursed, among 2,943 Claimants, from 1808 to the close of 1851, the sum of £2,476,897, of which a very *considerable proportion* was for **ADDITIONS**, under the system pursued by this Company.

Amongst the advantages offered by the Company to the Public are the following, viz. :—

That the Charges for carrying on this Branch of the Company's business are *very moderate*.

That the Interest and Dividends on the Life Fund are invested for the *sole benefit* of the Policy-holders, and, in like manner, the Profits arising therefrom after the Quinquennial Valuations, *without any deduction whatever*.

The following Table shews the *total additions* made to Life Policies for £1,000, effected in London or through an Agent in Great Britain, which had been in force for the Thirty-three years ending at *Christmas*, 1849 :

Date of Policy.	Age at Commencement.	Annual Premium.	BONUS.

Ditto.	60	63 13 4	2243	106 15 2

Equivalent Reductions have been made in the future payments of Premium, where the parties assured have desired to have the amount of Bonus so applied.

## FIRE DEPARTMENT.

The Company undertakes the Assurance of Property in the Manufacturing, Agricultural, and other districts on favourable terms. Risks of extraordinary hazard on special agreement, upon survey.

*An Allowance for the Loss of Rent of Buildings* rendered untenantable by Fire, is one of the advantages offered by the Company.

*The Assured are entitled to participate in a Surplus-Fire-Premium-Fund every fifth year.*

The Office Proposals and Forms for Assurance on Lives or against Fire, with full particulars explanatory of the constitution, &c., of the Company, may be obtained at the Office in London, or of any of the Company's Agents in the principal Cities and Towns of the United Kingdom.

The Scottish Branch of this Company is so constituted as to afford to Insurers all the benefits of Offices having their head-quarters in Scotland. I. The Company undertake to appear in Scotland should any suit be instituted in the Scottish Courts against them. II. The Company do not require Irish Probates or Letters of Administration to be taken out on the lapsing of Life Policies issued in Scotland.

### FIRE DEPARTMENT.

Insurances undertaken at moderate rates of Premium; and this Company holds itself responsible for damage done by Explosion of Gas, when such explosion takes place within buildings on or in which the Company has Insurance.

Policies transferred from other Companies free of charge.

Losses settled with promptitude and liberality.

## LIFE DEPARTMENT.

Two points ought to be well considered by all who think of effecting Assurances on their lives :—

The intending Assurer ought, if possible, to make certain—

I. That the Company he chooses will afford him *absolute security* for the due fulfilment of its contract.

The Patriotic Assurance Company has been established for upwards of thirty-one years, with a Capital or Guarantee Fund of One Million Five Hundred Thousand Pounds, in addition to a large Life Fund accumulated from Premiums. It has, moreover, paid Claims amounting to more than Three Hundred Thousand Pounds.

The intending Assurer should have in view—

II. That the Company he fixes upon will afford him at least as good a return for his money as any other equally respectable and solvent Office.

In regard to this second and very important point, the Directors of the Patriotic Assurance Company invite the attention of the public to their New Life Scheme, which will, they feel convinced, go far to supercede the old method of assuring sums payable only at death.

By the New Life Scheme, should the person Assuring attain a certain specified age, 50, 55, 60, 65 or 70, or according to agreement, instead of having every year, during the remainder of his life, to pay out a large annual Premium, *the amount covered by the Policy will be handed over to him to dispose of as he may think proper.* On the other hand, should he die before attaining the age specified, the amount covered by the Policy will be paid to his heirs.

To enable persons to take advantage of the New Scheme at once, and thus procure Policies at the low Premiums charged for young Lives, the Directors will allow one-half of the First Seven Years' Premiums in each case to remain unpaid, the remaining half bearing interest at five per cent.

### EXAMPLE OF HALF CREDIT SYSTEM APPLIED TO A NEW SCHEME POLICY.

*The first payment (including interest) required for £500 Policy, taken out by a person aged twenty-five, and due at sixty-five, or death, is only £5 19s.*

No charge for Entry-Money, Medical Fees, or Policy Stamp.

Loans advanced on Approved Security in conjunction with Life Policies.

The estimation in which the Company is held by the public, is seen from the following brief statement of the

### PROGRESS OF THE BUSINESS.

In the Life Department, the New Premiums received for the year ending August, 1855, were 45 per cent. in excess of those received for 1854.

In the Fire Department, after deducting all sums paid for re-insurance, the Premiums for 1855 exhibit an increase of upwards of 14 per cent. when compared with the Premiums of 1854.

Full information, with Prospectus, Forms of Proposal, and Copies of the Thirty-first Annual Report, may be had, gratis, on application at any of the Company's Offices or Agencies.

### LIFE DEPARTMENT.

THE peculiar and distinctive features of this Society consist—In allowing no member, when unable to continue his payments, to lose the benefit of the sums which he has paid, and arrangement may be made to secure a Policy free from any future payments.

By making every Policy *absolutely Indisputable* under any circumstances, thereby rendering them negotiable instruments as security, and entailing no trouble or inconvenience on the survivors.

By making every Policy PAYABLE TO THE HOLDER by endorsement, by which means the expense and trouble of an Assignment are avoided. By this means a Policy may be negotiated with the same facility as a Bill of Exchange.

The Society is established on the just principle of Mutual Life Assurance, returning to the Assured, by way of Bonus, the surplus above the cost of the Assurance.

It embodies all the improvements of other Offices.

The Funds of the Society are employed in granting Loans to Members upon approved Security.

The Payment of the Premiums is arranged to suit the convenience of all classes of Assurers. One-half the Premiums for the first five years may remain unpaid.

The Assured are protected by a Guarantee Fund of £50,000, in addition to the Annual Income and Reserved Fund.

### FIRE DEPARTMENT.

The Company Insures almost every description of Property.

Fifty per Cent. of the Profits returned *annually* to the Insured.

A LIBERAL and SYSTEMATIC CLASSIFICATION OF RISKS.

EVERY REASONABLE ALLOWANCE made for improvements in the construction of Buildings.

BRITISH AND FOREIGN ASSURANCE.

PERSONS effecting Assurances with the Company, enjoy the following important advantages:—  
PERFECT SECURITY.

The large Capital, and nearly One Thousand Shareholders composing the Company, render the security presented to the Public undoubted.

HONOUR AND LIBERALITY IN THE SETTLEMENT OF LOSSES.

The well-known character of the Members of the Direction affords on this head every possible security.

MODERATE PREMIUMS OF ASSURANCE.

The Tables of Rates for Life Insurance, for the younger ages, lower than those charged by many of the older and most respectable Offices.

The Rates of Premium for Fire Insurance the same as those which are demanded by the first class of Assurance Companies.

PARTICIPATION OF PROFITS BY THE ASSURED BOTH IN LIFE AND FIRE.

The Profits of the Life Department, appropriated every five years, are applied to the increase of the amounts assured, or to the reduction of the future premiums, according to the choice of the Assured.

The Profits of the Fire Department, appropriated to the Assured, are distributed at the close of each successive period of five years, in the form of a per centage on the premiums which have been paid.

## LIFE DEPARTMENT.

Policies transferred from other Offices free of expense.

The Renewal Receipts of Fire Policies can be made to fall due at either the Scotch or English Terms.

### LIFE DEPARTMENT.

In this branch of business this Company offers peculiar advantages, combining all the improvements in the mode of Insurance which experience has proved to be desirable, with the security arising from a large subscribed capital and an established business, and likewise the benefit the Life Policy-holders derive from the profits accruing from the Fire Department.

Life Insurances are effected in all its branches, both at home and abroad, at the most moderate rates consistent with security to the assured, comprising

WHOLE LIFE AND SHORT TERM POLICIES.

INSURANCES FOR ADULTS, PAYABLE AT A STATED AGE, OR CONVERTIBLE INTO ANNUITIES.

ENDOWMENTS FOR CHILDREN, PAYABLE AT ANY PERIOD BETWEEN THE AGES OF 14 AND 21.

DECREASING OR INCREASING SCALES OF PREMIUMS.

ONE-HALF of the Annual Premiums for the first Five Years may remain as a permanent charge upon the Policy, at Five per cent. per annum interest.

One of the most advantageous plans of Insurance yet offered to the public, and adopted by this Company, is that of allowing

ONE-THIRD of the Premium to remain unpaid until Death, thus affording an opportunity to Insurers of effecting a Policy for £1500 at the Premium otherwise required for £1000.

PARTNERSHIP POLICIES are issued on the Joint Lives of two or more Partners, to cover the Capital withdrawn in case of the death of either; and when effected on the principle of allowing ONE-THIRD of the Premium to remain unpaid during the whole term of life, the expense is trifling, and is a mode of Insurance strongly recommended, being a great benefit to the survivor, and frequently preventing much inconvenience; and this will also be found a desirable mode of Insurance to the

MARRIED. Joint Policies being issued on the above plan, the expense is considerably reduced, and a Policy for One-Half more secured. This important fact is also urged upon the consideration of those wishing to make a

MARRIAGE SETTLEMENT, a desideratum of the greatest importance to parties in all positions of life. There is one feature of Insurance that is not generally taken into consideration by the Commercial World, namely, The desirability of covering the loss likely to be sustained on the FORCED SALE of the Stock, at the death of the Owner. As, for instance, a Stock worth £1000 would not, in most cases, realize more than £700; and, therefore, were a Life Policy held for £300, the deficit would be covered at a comparatively small yearly outlay.

Persons desirous of discontinuing their Policies can have them converted into Absolute Reversions, provided they have been in existence for five clear years. For example, a Policy now in force for £2000, effected in 1839, on a life aged 41, could now be exchanged for one for £1030 8s., free from all further premiums. This plan is highly favourable to Insurers, as it prevents a serious loss being sustained by the sale of the Policy.

CREDITORS and others having a *bona fide* interest in Policies, can have them rendered indisputable securities

THE peculiar features of this Company are—a Large Capital—TWO MILLIONS—of which upwards of One and a Half Millions are actually subscribed; a wealthy, influential, and extensive Proprietary throughout the kingdom; upwards of £120,000 of the Company's Stock held in the West of Scotland; and a large commercial and general connection through its establishments in Manchester, London, Liverpool, Glasgow, and Greenock.

## BUSINESS IN SCOTLAND.

From special arrangements made for this Company, its whole business in Scotland will be so managed as to make it essentially a Scotch Office, while possessing all the Influence, Security, and Stability of the whole Company. In particular—

- 1st, The Policies will be granted and made payable in Scotland, so as to obviate the necessity, which is applicable to the Policies of other English Companies, of the representatives of the Insured obtaining at great expense Letters of Administration or Probates from the English Ecclesiastical Courts.
- 2d, This Company's Policies are also made transferable, according to the law of Scotland, by intimation to the Company's Office in Glasgow, thus avoiding the difficulties and insecurity of effecting transfers in England.
- 3d, All questions or disputes that may occur with the Company, in reference to its Scotch Business, if not settled by arbitration, according to the Company's Deed of Settlement, may be tried in the Scotch Courts of Law, if desired.

THE Company was established in 1823, and has been incorporated by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its branches, on the most liberal and approved principles. The success which has attended the Company since its commencement, and its annually increasing prosperity, is a gratifying proof that the principles upon which it is founded are calculated to confer great benefits on assurers.

The following are the principal advantages given by this Company:—

**MUTUAL ASSURANCE**, without liability.

The guarantee of a responsible body of Proprietors, either personally or otherwise, assured with the Office, affords the most undoubted security to all classes of assurers.

**NINE-TENTHS** of the **WHOLE PROFITS** Septennially divisible among the assured.

This is a larger proportion than can ever be divided by any simple Mutual Assurance Society.

**THE NEXT DECLARATION OF BONUS** takes place on 31st August, 1856, when all then Insured on Participation Plan will share in the division.

**AN INTERMEDIATE BONUS** paid on Policies becoming Claims between one Investigation and another.

All the advantages of an Annual division is thus given, without its attendant evils.

**THE MOST EQUITABLE PRINCIPLE OF DIVISION.**

The greatest benefits are thereby bestowed upon the oldest Policies, thus securing that first-class lives shall not suffer by any undue Bonus being paid away to those who may die early..

**RATES OF PREMIUM EXTREMELY MODERATE.**

The Non-Participation Scale is equivalent to a present Bonus of considerable amount when compared with most other Offices.

## NEW ADAPTATION OF THE BONUS SYSTEM.

### "SEVEN YEARS' HALF CREDIT ASSURANCE."

BY the following new and peculiarly advantageous plan of Assurance, based upon the system of an ANNUAL DIVISION OF PROFITS, first adopted by the CITY OF GLASGOW LIFE ASSURANCE COMPANY, the assured are allowed Credit for Seven Years, for one-half of the Premium exigible at entry, and at the end of the Seven Years are enabled to keep up the Policy at a very moderate and annually decreasing rate of Premium, whilst the sum in the Policy is payable at Death, free of all debt or claim upon it by the Company.

THE melancholy Shipwrecks (attended with so fearful loss of life) which have occurred even in the last twelve months), prove most emphatically the value of the system of Assurance presented by this Company. By payment of a Premium so small that all classes may avail themselves of the advantages offered, the Passengers by Sea, as well as the Mariner, may secure a certain provision for their families, should they perish through the dangers of the deep, and should they meet with an accident not of a fatal nature, this Company is bound by their Policies to allow

in proportion to the amount insured; but in no case exceeding one-fourth of the amount payable in case of death.

The following particulars of some of the claims recently paid by the Company, illustrate the nature of several cases of personal injury for which compensation has been allowed, and prove more forcibly than any argument the value of Maritime Life Assurance:—

**T**HE distinguishing features of this Society are—

The *unquestionable security* afforded. The *moderate rates* of Premium charged. The *large Bonuses, or return of Profits*, made to Life Assurers, in addition to other important advantages, all of which are fully detailed in the Society's Prospectus.

Three-fourths of the profits are divided every Five Years among those Policies entitled to participate.

The practical effects resulting from this system will be at once seen by the following extracts from the Society's books:—

## ADDITIONS ALREADY MADE TO POLICIES OF VARIOUS AMOUNTS.

Year Policy Issued in.	Sum Assured.	No. of Years Assured.	Bonus added to Policy.	Total Sum Payable at Death.
1842	£3000	13	£504 12 6	£3504 12 6

1851	5000	4	124 1 10	5124 1 10

The Third Quinquennial Division of Profits will take place at the close of the year 1859.

## GENERAL ADVANTAGES.

1. Participation in *Profits* or not, at the option of the Assured. The without Profits are at rates lower than those demanded by many of the existing Offices.
2. No Entrance Fee or charge for Policy Stamps.
3. Parties allowed to pass and repass, in times of peace, from one part of Europe to another by sea and land, except Turkey or the Levant, without payment of additional Premiums, or incurring the risk of forfeiture of Policy.
4. Claims paid Three Months after proof of the death of the Party Assured, or sooner, deducting interest at 5 per cent.
5. Should a party, from any unforeseen circumstances, be unable to pay a Premium, he will be allowed by the Directors (if his Policy be of at least Two Years' standing) to let that Premium stand over as a debt against the Policy.

Forms of Proposals and Prospectuses, containing all necessary particulars, may be had at the Society's Offices, and of the Agents throughout the United Kingdom.

1. Life Policies issued upon the faithful representations of Assurers indisputable.
2. Three-fourths of the Profits divisible amongst the Policy Holders.
3. Policies granted from £5 to £10,000.
4. Premiums may be paid in One Sum, or by Yearly, Half-yearly, or Quarterly Instalments.
5. Policies which have been upwards of Three Years in existence purchased by the Society, or New Policies given in Exchange equivalent to the then value of the Premiums paid, on which no farther payment is required.
6. On Policies of £200 and upwards, for the whole of Life, One-half of the Premium may remain at Interest for Five Years.
7. Policies of Two Years' standing not forfeited by Suicide.
8. Annuities immediate and deferred, and Endowments granted.
9. No Expense to Insurers for Policy Stamps or Medical Examinations.

**FIDELITY GUARANTEE DEPARTMENT.**

The Directors beg to solicit attention to the FIDELITY GUARANTEE DEPARTMENT of this Society, the terms of which will be found of an extremely liberal character.

The substitution of Guarantee Assurances for Private Cautionary is acknowledged to be of great public utility. Such Assurances have been already extensively adopted by many of the public Banking, Railway, Mercantile, and other firms, and the system has given general satisfaction. The Directors of this Society are persuaded, from past experience, that it is impossible to appreciate too highly the advantages of an extensive application of the principle of Public Fidelity Guarantee Assurance, for while it provides an undoubted Guarantee to the Employer against fraud or dishonesty, it operates as a powerful check on the general conduct of the Employè, and if the system be adopted with every individual holding a place of trust at the commencement of his career, very beneficial results must ensue.

Another advantage which such Assurance offers is, that parties who are now engaged as private sureties, and who cannot withdraw from their obligations, have now the opportunity of obtaining protection from any loss which may arise.

UNION OF LIFE AND GUARANTEE ASSURANCE.—Valuable and important as the principle of Public Guarantee has been found to be, additional advantage accrues where an assurance on the life of the party guaranteed is combined therewith, inasmuch as an immediate reduction on the life premium is allowed, and such life policies being issued on the scale of participation in profits, the result in the course of a few years may be regarded as an entire absorption of the guarantee premium. Thus each Assurer may eventually become his own surety.

PREMIUMS.—Guarantee Premiums are applicable to all classes of risks, and, except in special cases, range from 10s. to 40s. per cent.

Rates for Bank Managers and Clerks are peculiarly advantageous, commencing at 10s. per cent., and diminishing 1s. per cent. annually until the rate is reduced to 6s. per cent., or equal to a reduction of 40 per cent. in four years.

Premiums for Railway Officials, Secretaries of Public Companies, Cashiers, Book-keepers, Travellers, Collectors, and Clerks in Mercantile and similar Establishments, are proportionately low, and a reduction of 20 per cent. upon the Premiums is allowed after the FIFTH ANNUAL PREMIUM.

**T**HE CITY OF LONDON LIFE ASSURANCE SOCIETY, guaranteed by a subscribed Capital fully adequate to every contingency, offers all the advantages of the Mutual System without involving the Assured in its risks or liabilities, and it affords facilities in every department on principles of true economy, limited only by strict regard to security.

The Rates of Premiums are founded, not upon local, imperfect, or theoretic data, but upon the actual experience of the most important Offices in existence, and after Six years the Profits are to be declared Triennially. Amongst the peculiar advantages offered by this Society, are the following Modes of Assurance:—

The **MUTUAL**;

The **PROPRIETARY**; and

The **DEPOSIT or ACCUMULATIVE**;

The two first embracing the most liberal and advantageous arrangements to meet the objects of parties assuring, whilst the *third*, a new feature introduced by this Society, unites all the advantages of *Life Assurance*, together with the convenience of a Deposit Bank, the Assured being always at liberty to withdraw the whole or any part of the Amount deposited as Premiums, while no Policy in this department can become lapsed.

**SELF-PROTECTING POLICIES.**

This Society has also introduced a new combination of interests, whereby the Assured receives by one Policy, and one Rate of Premium, an Endowment—a Life Assurance, and a Deferred Annuity; and also the full benefit of every payment he has made, **ALTHOUGH HE SHOULD BE UNABLE OR UNWILLING TO KEEP UP HIS POLICY.**

A **SELF-PROTECTING POLICY** thus embraces an Endowment of a specific Sum to be paid to the Assured himself on his attaining a specified Age; an Assurance payable, if he should die before reaching that age, to his Representatives, or any person he may appoint; and an Annuity, to be paid Half-Yearly to the Assured during his Lifetime, after having attained that specified Age.

The Premiums for these Policies cease when the amount Assured becomes Payable and the Annuity commences, and may be made by such periodical payments as to suit the convenience of the Assured. The Policies on this plan will not fall by reason of non-payment of future Premiums, nor will the Assured lose the benefit of any part of the Sums he may have paid (the first year's premium excepted), although he should at any time be unable or unwilling to continue the periodical payments. For a Self-Protecting Policy, once granted, will continue in force and be available for the Endowment, Assurance, and Annuity, to the extent and in that proportion which the Sums received by the Society bear to the amount of the periodical Premiums that would have been received if they had not been discontinued. Hence the Policy can never be forfeited.

## LIFE DEPARTMENT.

THE Public are reminded of the advantages which this Company offers to Assurers, some of which are subjoined:—

- FIRST, Undoubted Security from a large accumulated fund from Premiums, besides the Subscribed Capital.
- SECOND, The Premiums under the Non-Participating Table enable a party aged 30 to open a Policy for £1,244 9s. 9d. payable at death, for the same premium that the Mutual Societies insure £1000, thus giving an immediate Bonus of £244 9s. 9d.
- THIRD, The Participating Premiums give the Assured a right to participate in the Profits to the extent of about 84 per cent.
- FOURTH, No Charge is made for the Policy Stamps.
- FIFTH, Parties insuring with this Company can deduct the Annual Premiums on their own and their Wives' Lives, from the Assessment made upon them for the Income Tax.
- SIXTH, No extra Premium is charged for residence in Australia, Van Diemen's Land, Cape of Good Hope, or America, north of 38 degrees North Latitude.
- SEVENTH, Parties, on application in terms of printed Forms to be had at the Office, may have their Policies declared indisputable after the lapse of five years from their date.
- EIGHTH, Liberty granted to the Assured, after five years from the date of their Policies, on application, in terms of the above, to reside beyond the limits of Europe without extra charge.
- NINTH, No Entry-Money.

NO CHARGE FOR POLICY STAMPS OR MEDICAL FEES.

**T**HE Rates of Premium are those adopted by the principal Life Offices; the Rate without Bonus is lower than that of most other Offices.

The Bonuses are added to the Policies, or applied to the reduction of Premiums.

Policies issued by this Office are purchased at their full value; or Loans may be obtained upon them after they have been in existence for five years.

If a party neglect to pay for the renewal of his policy, he may repair the omission any time within twelve months, upon proof of good health.

The Profits (subject to a trifling reduction) are divided among the Insured. The plan upon which they are divided gives to each party insured a share proportionate to the amount of the Premiums he has contributed.

In addition to this advantage which is now offered to the Policy-holders in this Office, an annual addition or bonus is made to each Policy in anticipation of the Quinquennial Division of Profits.

*The following Extract from the LIST OF CLAIMS paid by the "PROVIDENT," is published with the sanction of the parties interested in the Policies, some of whom have accompanied their acknowledgement of the unexpected advantages with an earnest desire that the widest circulation may be given to the publication:—*

WILLIAM MILLS, Esq., formerly Lord Provost of the City, *Chairman.*  
 ARCHIBALD SMITH, Esq., Younger of Carbeth-Guthrie, Sheriff-Substitute of Lanarkshire.  
 ANGUS TURNER, Esq., City Clerk of Glasgow.  
 THOMAS LUCAS PATERSON, Esq. of Downhill.  
 ROBERT GRAEME, Esq. of Wellhall.

The business of the Branch Office will be conducted by Mr. JOHN STOTT, formerly Cashier in the Office of the Association in Edinburgh, who has been appointed Secretary to the Local Board.

The Directors have purchased the premises No. 105 ST. VINCENT STREET, lately occupied by Messrs. Merry & Cunningham, in which suitable accommodation will be provided for the business of the Association. During the alterations to be made on these premises, the business will be carried on in the TEMPORARY OFFICE (*directly opposite*) No. 116 St. VINCENT STREET.

ASSURANCES granted on SINGLE or JOINT LIVES, with or without PARTICIPATION in PROFITS.

PREMIUMS may be paid YEARLY, HALF YEARLY, on an INCREASING or DECREASING Scale, for a limited number of years only, or in a SINGLE PAYMENT, at the option of the Assured.

HALF-CREDIT PREMIUMS may be paid during the first FIVE YEARS.

BONUS ADDITIONS, amounting to upwards of ONE HUNDRED THOUSAND POUNDS, have already been made to the PARTICIPATION POLICIES. In the Division of Profits NEW ENTRANTS are not exposed to any disadvantageous competition with the older Policy-holders. Policies for £1000, opened in 1840, have been increased to £1245, being an Addition of nearly TWENTY-FIVE PER CENT. to the SUM ORIGINALLY ASSURED. Policies now effected will participate in the DIVISION OF PROFITS at 1860.

PROFITS may, if preferred, be applied in REDUCTION OF PREMIUMS.

ENDOWMENT ASSURANCES payable at SPECIFIED AGES.

CLAIMS are paid either on SCOTCH or ENGLISH TITLES; and parties transacting with the Office in Scotland secure every benefit they can obtain in an *exclusively* Scotch Office.

# NORTH BRITISH INSURANCE COMPANY.

ESTABLISHED IN 1809.

INCORPORATED BY ROYAL CHARTER AND ACT OF PARLIAMENT.

CAPITAL, ONE MILLION STERLING.

PRESIDENT.

HIS GRACE THE DUKE OF ROXBURGHE, K.T.

VICE-PRESIDENTS.

Most Noble the Marquis of ABERCORN, K.G.—Right Hon. the Earl of STAIR.  
Right Hon. the Earl of CAMPERDOWN, K.T.

## LIFE ASSURANCE.

THE system of the NORTH BRITISH INSURANCE COMPANY combines the benefit of Mutual Assurance with the safety of a large Protecting Capital, and thus affords all the facilities and advantages which can prudently be offered by any Life Assurance Office.

Parties may either assure a precise sum at a low rate of Premium, or, as in Mutual Assurance Offices, pay a higher rate, and have Periodical Returns in the shape of Bonus Additions to the sum insured.

NON-PARTICIPATING POLICIES may at any time be transferred to the PARTICIPATING CLASS on equitable principles.

BONUSES are considered additions to the sum insured, and share in the future Profits. Thus, for example,—

A Policy of £1000, having £285. 16s. of previously vested additions, was at 31st December, 1851, ranked as a Policy for . . . . .	£1285 16 0
And had a further addition made to it at that date of . . . . .	112 10 3

And will, according to the principle of division above mentioned, be ranked at next investigation on 31st December, 1858, as a Policy for . . . . .	£1398 6 3
---	-----------

NOTE.—*In the event of death before the next Division of Profits in 1858, a PROSPECTIVE BONUS of £1 per cent. per annum on the above sum of £1398. 16s. 3d. is guaranteed, or £13. 19s. 8d. for each Premium paid since last investigation, being equal to £1. 8s. per cent. per annum on the original sum assured.*

## GENERAL FACILITIES.

1. Premiums moderately rated at all ages, and so adjusted as to suit the objects and convenience of parties; and the Sums insured may be made payable to the party himself on attaining a specified age, or to his heirs or assignees at his death; or, *alternatively*, to himself on attaining the specified age, or to his heirs or assignees, if he should die earlier.

2. No Entry-Money or other charge. Policy Stamps and Medical Fees paid by the Company, and Assignments of Policies registered free of charge.

3. ONE-HALF of the Premiums may remain on credit for the first five years; or ONE-THIRD during the convenience of the Assured, interest being paid on the portion on credit.

4. Bonuses may *at any time* be commuted for a Cash Payment, or applied in reduction of future Premiums, except in cases of Policies of less than five years' standing, issued on an ascending scale of rates; and on the Credit system, if the debt be not repaid.

5. Liberal allowance made for the surrender of Policies upon which three Annual Premiums have been paid, when parties wish to discontinue them, either by payment in Cash, or by granting a new Policy for a corresponding sum, free of Premium.

6. Advances made on Policies to the extent of their acquired value.

7. Permission to pass and repass in time of peace from one part of Europe to another, by Sea or Land; and no extra charge for residence in British North America, the Cape, Australia, and parts of the United States, nor license required, except for the Voyage.

8. Twenty-one days allowed for Payment of Premiums after they become due, and in the event of the Party dying, payment within Twenty-one days by the Representatives held sufficient for preserving the Policy.

**SPECIAL ADVANTAGES.**

1. On proof of age, Policies are declared *indisputable*, on any ground whatever, after the lapse of *five years* from their date, provided the Premiums, ordinary or extra, stipulated by the Policy be duly paid.

2. Certificates granted on application declaring Policies exempt from payment of extra premium for travelling or residing beyond the limits of Europe, or for entering into Military or Naval service, and from the necessity of applying for License to do so, from and after the expiry of five years from their date, provided it shall be shown to the satisfaction of the Directors that the Assured have, at the time of the application, no intention or prospect of going abroad, or entering into Military or Naval Service.

By these arrangements the Policies of this Company are rendered more valuable as a family provision, or as a transferable security in money transactions, and more marketable when wished to be disposed of.

**FIRE INSURANCE.**

This Company insures against LOSS or DAMAGE by FIRE, all Descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares, and Merchandise in the same; Ships in Harbour or in Dock, and Farming Stock of all descriptions, at the lowest rates of Premium corresponding to the risk.

The Rates of Annual Premiums on the Three Ordinary Classes of Insurance are:—

COMMON, 1s. 6d.; HAZARDOUS, 2s. 6d.; DOUBLY HAZARDOUS, 4s. 6d.,

with certain exceptions.

Rents of Property insured on the same terms as the Buildings.

Farm Stock and Crop insured, *in cumulo*, on one Farm, without the average clause, at 3s. per cent. (free of Duty), and Loss and Damage by Lightning thereon made good.

The Rates for all Insurances, not coming under the above heads, are fixed by special agreement.

N.B.—LOSS OR DAMAGE ARISING FROM EXPLOSION OF GAS TAKING PLACE IN THE BUILDINGS INSURED BY THE COMPANY, MADE GOOD; ALSO, LOSS OR DAMAGE BY FIRE FROM LIGHTNING.

No charge is made for Policies when the Sum insured amounts to £300.

LOSSES SETTLED WITH PROMPTITUDE AND LIBERALITY.

Prospectuses, containing Tables of Rates, and every other information, may be had at the Head Office in Edinburgh, or of any of the Company's Agents in the Country.

The risks undertaken by the Company are comprised under the following heads:—

A. Insurances against deaths by accident or violence, whether occasioned by railway travelling or otherwise.

B. Similar insurances accompanied with a provision for compensation in the case of a serious accident which does not terminate fatally.

C. Insurance against death by railway accident, accompanied with compensation in case of non-fatal injury.

It will be observed that under A and B all accidents (embracing railway accidents) are included, and that C applies to railway accidents exclusively.

Prospectuses, with further information, may be had at the offices of the Company, or from any of the Company's Agents.

## AGENTS FOR GLASGOW.

WILLIAM BRUCE & JOHN MURRAY, 30 EXCHANGE SQUARE.

# SCOTTISH WIDOWS' FUND LIFE ASSURANCE SOCIETY.

FOUNDED A.D., 1855.

HEAD OFFICE—5 ST. ANDREW'S SQUARE, EDINBURGH.

THE Assured or Members are the only parties interested in the Funds of this Institution, which now amount to upwards of

**THREE MILLIONS STERLING.**

The Society's claims to public confidence and support are grounded mainly on the sound and equitable principles of its constitution, and on the care and success with which its operations have been conducted from their commencement up to the present time.

While the Premiums are not higher than those required by many other Offices, the Society does not pretend to compete with those which hold out the attractions of cheap rates, whether as being the lowest which are compatible with safety, or as being based on what is termed the "HALF-CREDIT SYSTEM."

There being no Proprietary, however, those of the Assured who, by the terms of their Policies, are entitled to participate in the Profits of the Society, are the only parties who derive benefit from the rates being more than what are found from time to time to be required to meet the actual risks; and the result of past allocations of Surplus Profits has been such, that in the case of all the earlier Policies, which have become claims within the last few years, the amounts paid to the representatives of deceased Members have been MORE THAN DOUBLE THE SUMS ORIGINALLY ASSURED.

In cases where family provision is the sole object, this result cannot fail to be considered as of the most satisfactory nature; while in other instances, where the parties are desirous of securing benefit from the Surplus Payments DURING THEIR OWN LIVES, instead of allowing the Bonus to remain an addition to the Assurance payable at death, the alternatives practicable under the laws of the Office have been commensurate in degree. In many cases, in consideration of an abandonment of the reversionary claim for Bonus additions already declared, such parties have either received large payments in PRESENT CASH, or have been LONG AGO ENTIRELY RELIEVED FROM FURTHER PAYMENT OF PREMIUM, the Policies still remaining entitled to participate in future allocations of the profits.

Illustrations of the application of Bonus on either of the footings above referred to are contained in the Society's Prospectuses, which, together with Forms of Proposal, &c., may be had on application at the Head Office, or to any of the Agents in the three kingdoms.

JAS. A. CAMPBELL, Esq., *yr. of Stracathro*. | HUGH BAIRD, Esq., *Brewer*.  
*Medical Officer*.....Dr. Andrew Anderson.

THE Premiums, at early and middle ages, are about a fourth lower than in the other Mutual or Participating Offices. They are as low as the *Non-Participating* rates of the Proprietary Companies, which they admit of being, not only with safety, but with ample reversion of Profits to the Policy Holders—being free from the burden of dividends to Shareholders.

**EXAMPLES OF ANNUAL PREMIUM TO ASSURE £100 AT DEATH.**

Age—25	30	35	40	45	50
£1 18 0	£2 1 6	£2 6 10	£2 14 9	£3 5 9	£4 1 7

Thus a person of 30 may secure £1000 at death, for a yearly payment of £20 15s., which, if paid to any of the other Mutual Offices, would secure a policy for £800 only, instead of £1000.

The arrangement by which the Premiums are reduced to a rate commensurate with the risk, is obviously more suited for securing a competent family provision, in case of early death, than that which, by the same yearly outlay, secures a much smaller present sum, with the hope only of prospective and contingent additions.

**PROFITS.**

The practical working of the system has been, that, at the First Division of Surplus, Bonus Additions were made to the Policies which had come within the Participating Class,

*Varying from 20 to 54 per cent. on their amount; so that Policies originally for £1000 have been increased to £1200 and £1500.*

In all points of practice—as in provision for the indefeasibility of Policies, facility of license for travelling or residence abroad, and of obtaining advances on the value of the Policies—the Regulations of the Society, as well as the administration, are as liberal as is consistent with right principle.

Reports explanatory of the principles, with every information, may be had on application at the Head Office, or the Office in Glasgow,

The object of this ASSOCIATION is to promote the knowledge and love of the FINE ARTS, and their general advancement, by an extensive distribution of the WORKS OF LIVING ARTISTS, and to elevate ART and its PROFESSORS, by creating an increased desire for their WORKS, and an improved taste on the part of the PUBLIC.

I.—It is under the direction of a COUNCIL OF MEMBERS, who are chosen by the Subscribers at the GENERAL MEETING, whose services are honorary, four of whom retire from office annually.

II.—Subscribers of Ten Shillings and Sixpence are Members of the ASSOCIATION for the year for which the Subscription is paid.

III.—The FUNDS of the ASSOCIATION are appropriated to the purchase of MODERN WORKS OF ART, in PAINTINGS, DRAWINGS, and SCULPTURE; and those WORKS OF ART are publicly distributed by Lot at the ANNUAL GENERAL MEETING of the MEMBERS, which will be held in December, when each Subscriber shall be entitled to one chance for every HALF-GUINEA Subscribed; and each Member who gains a Prize shall receive due intimation thereof.

IV.—No WORK OF ART, other than the *bona-fide* production and property of the ARTIST, shall be purchased by the Association.

V.—PRIZE-HOLDERS shall have the liberty of selecting the WORK OF ART most suited to their taste, according to the number of the Prize, No. 1 having the first choice, and so on.

VI.—Each Subscriber shall receive a copy of the elegant ENGRAVING on STEEL of "BISHOP JUXON and CHARLES THE FIRST on the MORNING of his EXECUTION," after the Painting by S. BLACKBURN, Esq. Engraved by Charles Knight, Esq.

NOTE.—Subscribers of more than One Share have the following privileges:—

Two Shares:—Two chances for the Prizes—Two Prints, or a Proof on India Paper of the Engraving for the year.

Five Shares:—Five chances for the Prizes—Five Prints, or a Proof before Letters of the Engraving for the year.

Ten Shares:—Ten chances for the Prizes—Ten Prints, or an Artist's Proof of the Engraving for the year.

## GLASGOW PROVIDENT INVESTMENT AND BUILDING SOCIETY.

ON THE PERMANENT PRINCIPLE.

(Established January, 1853.)

ENROLLED AND CERTIFIED UNDER THE ACT OF PARLIAMENT, 6 AND 7 WILLIAM IV. CAP. 32.  
SHARES, £25 EACH.—ENTRY-MONEY, 1s.—MONTHLY CONTRIBUTIONS, 2s. 6d.

SUBSCRIBED CAPITAL,  
UPWARDS OF ONE HUNDRED AND TWENTY-TWO THOUSAND POUNDS STERLING.

#### TRUSTEES.

JAMES DUNLOP, Esq., Clyde Iron Works.      ANDREW FARQUHAR GRAY, Esq., Glentig.  
FRANCIS WATSON, Esq., Banker, Glasgow.

THIS Society is established on the Permanent Principle, allowing at all times a free accession of Members, who, by the Statutes under which it is sanctioned, are protected from all liability. In its character of a Savings Bank, it gives facility for the improvement, at a high rate of interest, of the money of those who, from choice or otherwise, may only continue Members for a limited period.

The Subscribed Capital now amounts to £122,450, comprising 4898 Shares; whilst the Paid-up Capital amounts to £14,024—all properly secured for the interest of the Members, and yielding a large annual revenue. At last allocation of profits there were appropriated to Shares held three years by the Members an annual return of  $18\frac{1}{2}$  per cent., which will shorten the period of the Society's termination by several years.

The Special Advantages of its Membership are:—

1. The Admission, at any time, to whatever number of Shares the Member may wish.
2. A Property Investment to the extent of the value of the number of Shares subscribed for.
3. A Loan of the same Amount for a time agreed on, repayable by small periodical contributions.
4. Liberty at all times to withdraw the whole amount of paid-up Capital, with four per cent. Interest for the first year, and five per cent., free of Income Tax, for every year afterwards, adding and compounding quarterly for the term it may have remained with the Society.
5. The Profits ascertained annually, and by a Monthly appropriation to the continuing Members, whether Borrowers or not, applied to the completion of the amount of the Twenty-five Pound Shares.
6. A well-digested Code of Laws, with Tables of Interest subjoined, so that no misunderstanding can take place, the Members having at all times from the Tables a complete knowledge of their standing and position in the Society.

Copies of the Rules, &c., may be obtained from the undersigned,

## HONOURABLE MENTION!

PARIS UNIVERSAL EXHIBITION OF 1855.

# ARTIFICIAL TEETH, &c.

**JAMES A. YOUNG,**

THE JUNIOR PARTNER OF

**A. S. YOUNG & SON,**

Surgeon Dentists,

**185 & 187 BUCHANAN STREET, GLASGOW,**

**H**AS the pleasure to intimate that he received "HONOURABLE MENTION" at the "PARIS UNIVERSAL EXHIBITION OF 1855," for the INVENTION of the PATENT DENTAL FORCEPS, which *cause the least possible amount of pain* in the extraction of ANY Tooth or Root, HOWEVER FAR DECAYED; this great desideratum being secured by the many improvements embraced in their construction; some of the more particular of which are—the heads of the beaks are opened at a sufficient angle to enable the operator to see the tooth or root during the whole operation, and the curve of the handles and the inclination of the beaks to the bodies of the instruments allowing them to be applied and freely moved in any direction. The beaks are made to embrace only the roots, and as every root, or combination of roots, is more or less wedge-shaped, therefore, when the apex of the wedge is represented by that of the root, or the approximation of the roots, the beaks of the forceps act so near as possible as highly polished inclined planes upon a moveable wedge, causing the tooth, root or roots, in many instances to slip or leap out of the mouth; but when the apex of the wedge is represented at the neck of a tooth by the shape of a part of the root, or by the junction of two or more roots, then the forceps secure a firm hold. These, with the other improvements, permit the application of the *smallest* amount of force in the *best* direction, and consequently (*cæteris paribus*) reduce the PAIN to a MINIMUM.

Intending patients, &c., will please *particularly* to observe that the *only* Establishment at which JAMES A. YOUNG can be consulted, is at 185 and 187 Buchanan Street, where every branch of the business is conducted upon the principle that, "WHATEVER IS WORTH DOING IS WORTH DOING WELL;" *it being only by a strict adherence to this principle that it is possible to secure COMFORT and HEALTH to the PATIENT, and HONOUR to the DENTIST.*

N.B.—Those of LIMITED INCOME may consult JAMES A. YOUNG, at REDUCED CHARGES, from 9 to 10 Morning, and 6 to 8 Evening,

AT 185 BUCHANAN STREET,.....(A FRONT DOOR,

**T**HIS Company, from its various plans of accommodation, affords greater facility to parties wishing to Assure than most Companies of a similar kind.

Premiums may be paid quarterly, half-yearly, or annually.

Assurers for life and on the regular scale, may leave half the annual premium for the first five years unpaid at interest, to be deducted eventually from the policy, or paid off at convenience, whilst the Company have no claim for the arrears in the event of an assurer wishing to discontinue his policy; thus affording to parties desirous of effecting *Short Term Policies* the advantage of having a Life Insurance at a scarcely increased outlay.

The Ascending and Descending scales apply equally to the opulent and those of limited incomes; and the moderate rates charged well deserve the attention of the public.

Assured may proceed in time of peace from one part of Europe to another in decked vessels, without license, and to British North America, and many parts of the United States, without extra premium, by merely giving the ordinary notice to the office in London of the intended visit.

Whole World Life Policies granted at slightly increased rates of Premium, thus rendering them in money transactions a real security.

No charge made for Policy Stamps, or Entry Money.

Fees for Medical Reports paid by the Company.

The Age of the Life Assured admitted on the Policy at any time on the production of satisfactory evidence.

The greatest facility rendered in the settlement of claims.

Parties effecting Policies with this Office in Scotland will secure every facility and advantage which they can obtain by assuring with an exclusive Scotch Office.

No extra Premium is charged for Officers in the Army, Navy, or Militia, whilst residing in Europe, and not engaged in active service.

Forms of Proposals, Prospectuses, and every information obtained on application to the Resident Director, London; or of any of the Company's agents in the principal towns in the Kingdom.

46 BUCHANAN STREET, GLASGOW,

INVENTOR AND PATENTEE OF THE

**IMPROVED RADIATING STOVE GRATE, &c.**

THE above sketch shows a sitting-room where one of the Patent Grates is fixed. The gentleman is in the act of adjusting the door or damper. This is done by pushing the door back or drawing it forward, and thus opening or shutting proportionally, and with one movement, the upper and lower escape apertures for the products of combustion. The lower draught at c is what is technically called a back flue. From its position it draws the disengaged gases either through or right over the burning fuel, which thereby become inflamed, making a cheerful blaze, and thus dispelling or consuming all smoke. From the powerful radiation of heat obtained by this Grate, and the perfect command over the chimney draught, its economy follows as a matter of course.

In summer, fire-places in general present a dreary, forlorn aspect, by their wide open appearance. Now, this grate is shut by simply drawing forward the back, making the fire-place look smaller and less empty; and giving the apartment a finished appearance by its elegant and simple form. The fire-draught being thus easily shut, all currents down the chimney are avoided, and all dust, soot, or back smoke is confined within the vent.

# GLASGOW LAND-SURVEYING CHAIN MANUFACTORY.

ESTABLISHED 1824.

TO CIVIL ENGINEERS AND LAND-SURVEYORS.

ALEXANDER DICK,

LAND-SURVEYING CHAIN AND SAFETY LAMP MAKER, AND PLAIN AND  
FANCY WIRE WORKER,

10 BUCHANAN BUILDINGS, 105 STOCKWELL STREET, GLASGOW,

**T**AKES this opportunity again to return his unfeigned thanks to those Gentlemen who have honoured him with their kind favours since he commenced the above line, and hopes, by prompt attention to their orders, as heretofore, still to merit a continuance of their patronage.

A. D. would earnestly solicit the attention of those gentlemen who may not, as yet, have given his Chains a trial, to do so; being confident, from the flattering testimonials received from eminent practical gentlemen, in different parts of the three kingdoms, of their superiority, and besides being made of the very best Charcoal Springwire (nearly as hard as steel), he feels confident a trial is only necessary to prove them second to none now in use; and to prevent counterfeits, 'Alexander Dick, Chainmaker, Glasgow,' is on the middle teller or counter of those chains warranted. The following is an abridged list of his Prices, for Cash only.

## FOOT LINK 100 FEET CHAINS.

100 feet long, 100 links, 200 round rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 11s. 6d. each; and with a set of No. 5 link, brass counters, 12s. 6d. each.

100 feet long, 100 links with long eyes and grooved joints, 300 oval rings, and both made of No. 7 wire with superior improved strong wire handles, with brass tops and copper swivels, 19s. each; and with a set of No. 5 link, brass counters, 20s. each; but with filed joints, 19s. each.

A Chain of the same kind, but links and rings made of No. 8 wire, 17s. each; and with a set of No. 5 link, brass counters, 18s. each; but with filed joints, 17s. each.

A. D. would particularly recommend the Chains with long eyes and grooved joints (being his recent improvement), as the neatest and best he makes, with 300 oval rings; warrants them not to crank nor twist up, and less liable to stretch than those with round-eyed links and round rings, being made in a superior style.

Scotch Surveying Chains, with or without the fractions, made only to Order.

## IMPERIAL OR LINK-SURVEYING CHAINS.

66 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 8s. 6d. each, and 8s., 7s. 6d., 7s., 6s. 6d., 6s., and 5s. 6d. each.

66 feet long, 100 links, with long eyes and grooved joints, 300 oval rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 17s. each; but with filed joints, 16s. each.

A Chain of the same kind, but links and rings made of No. 8 wire, 15s. each; but with filed joints, 14s. each.

Imperial Link Mine Surveying Chains, with neat strong brass handles and copper swivels, with 10 links of brass wire at each handle, 19s. each, and with 10 links of brass wire also at the 50 and 60, 25s. each.

Surveying Chains made of cast-steel wire to any length, size of wire, or pattern, only to Order.

Large and small ring Swails, Planting and Hoing Chains for the East and West Indies, made to Order. Copper, Brass, Iron, and Steel Wire, oval link Clock-pitch, and Double-link'd twisted flat Chain, made to Order.

Davy and Common Safety Lamps made and re-covered.

PLAIN AND ORNAMENTAL WIRE FENCE FOR PLEASURE GROUNDS, AND EVERY OTHER  
ARTICLE IN THE LINE EQUALLY CHEAP.

THE  
**PATENT DRY GAS METERS**  
 OF  
**THOMAS GLOVER**

**A**RE respectfully recommended to all Consumers of Gas. These Meters possess many important advantages. They are not affected by frost or heat, and may be placed either above or below the burners without diminishing the supply of light; they prevent water entering the fittings, and the frequent annoyance of the gas jumping and going out; also, a more uniform, brilliant, and steady light, as well as an unvarying measurement, is obtained.

The **DRY METERS** require no water to regulate the necessary supply of Gas, and all trouble of watering is thus avoided, which, when filled either under or above the water line, causes erroneous measurement. By a recent testing of the several Gas Companies of London of their Wet and Dry Meters, it was proved that the Dry were the best, and gave more equal justice to the Gas Company and Consumer.

Upwards of 85,000 of these Dry Meters can now be referred to in operation, which continue to give every satisfaction, in this country and other places.

# COFFEE ROASTING, SUGAR POUNDING, AND GENERAL GRINDING WORKS,

29 M'PHERSON STREET (off HIGH STREET), GLASGOW.

*The only Steam-power Roasting Establishment connected with the Trade in the City.*

**D.** MINTO begs leave to return thanks to the Grocers and Druggists of this Town and Vicinity for past favours.

He also begs leave to intimate, that in connection with his Coffee-Roasting, and Coffee and Spice-Grinding Works, he has fitted up an extensive Sugar-Pounding Machine, offering to the Confectioners, and Trade in general, an advantageous opportunity of having their Sugar Pounded by Steam-power, far surpassing anything ever yet offered to the Trade.

*P.S.—All Orders punctually attended to, and delivered by his Vans at the proper time.*

29 M'Pherson Street, off High Street,  
GLASGOW, May, 1856.

The COFFEE PLANT, "*Coffea Arabica*," of Linnæus, is an evergreen, and, as may be inferred from its scientific name, is a native of Arabia. It produces a pulpy berry about the size of a small cherry, enclosing two seeds, which, separated from their pulpy envelope, form the well-known Coffee Beans of commerce. It may be remarked, as a singular fact in reference to Coffee, that while all of the vegetable kingdom that have been taken under the care of man have been improved, it alone asserts its independence; for, although cultivation may greatly enlarge the crop, it as certainly, at the same time, deteriorates the flavour, and the produce of the wild plant still maintains the highest figure in the market. It is well known that Coffee would be of no real value were it not properly roasted—a process which, as it requires much skill, is only to be acquired by experience. How man became acquainted with the fact, that the tasteless seeds of a berry, when roasted, ground, and infused, would form a grateful beverage, will most probably remain a secret till the end of time. That the development of its useful properties depends wholly upon the roasting, is evident. About two hundred years ago, Coffee was first introduced into England, since which its consumption has steadily increased, and deservedly so, when its Medicinal properties are considered, it having been found useful in headaches arising from a particular state of the stomach, and much benefit having been derived from its exhibition in cases of Asthma.

A French scientific gentleman, who has directed his attention to this subject, says:—"I have found that Coffee is better roasted, and more of the aroma retained, when a double cylinder is used—the air between the interior and exterior cylinders acting as a non-conductor of heat. It is done more uniformly, while the essential oil on which the aroma depends is less liable to be dispersed, than when exposed to the fierce heat of a fire in a single cylinder."

In the double rotatory globular method of roasting, as practised at Mr. MINTO'S Works, 29 M'Pherson Street, off High Street, Glasgow, the above principle is acted upon, inasmuch as the globe (which has superseded the cylinder since the application of steam power to this branch) revolves in a medium of heated air, which, experience has shown, best prevents the dispersion of the essential oil, or aroma.

**R**ESPECTFULLY returns his sincere thanks  
to his Friends and the Public generally, who  
have so liberally encouraged him since he com-  
menced business, and trusts that, by selling only  
articles of the best description, and by punctual,  
prompt, and personal attention to orders, he may  
merit a continuance of their patronage.

A. C. solicits attention to the undernoted list of  
the principal articles manufactured and supplied at  
his Establishment, viz.: COPPER, BRASS, and  
IRON WIRE-CLOTH of every description, for Corn,  
Flour, and Barley Mills, Chemical, Gunpowder,  
Sugar Refining, and other Manufactories; also,  
Wire Gauze for Window Blinds, Galvanized Wire-  
cloth for Meat Safes and Larders, Davy-Lamp Wire-  
cloth, &c. A stock always kept on hand of the  
various kinds of Wire-cloth for the West Indian and  
other Sugar Plantations. SIEVES: Iron, Brass,  
and Hair-cloth of every sort. Sugar Strainers and  
Skimmers made to order. RIDDLERS for Coals,  
Lime, Sand, Ashes, Grain, Potatoes, &c. Lime  
Screens or Harps for Builders. Parrot, Blackbird,  
Lark, and Canary Cages in great variety. Frames  
for Granary Windows and Library Doors filled with  
Wire. Rat and Mouse Traps. Fire Guards. Let-  
ter Boxes. Tinned, Iron, Brass, and Copper Botling  
Wire, &c., &c., and every other article usually made  
by the Trade, on the most liberal terms.

**PATENT MACHINERY BELT  
MANUFACTORY,**

**190 TRONGATE, GLASGOW.**

**T**HE advantage of this PATENT BELTING  
consists in its uniform thickness, producing  
a regularity of motion and saving to the machinery.  
Our process of preparing, cutting, and joining the  
leather into Belts (either double or single) of any  
size, length, or thickness, gives also about one-sixth  
more in length for the same weight than the ordi-  
nary Belting.

By this system, those favouring us with orders  
will purchase only "Belts," there being no super-  
fluous material in their construction.

It is necessary, however, that the *resisting power*  
should be stated, to enable us to supply the Belting  
of an *equivalent strength*, and ready stretched for  
use.

PATENT CLASPS for joining Belts in one-  
fourth of the time required for lacing.

Satisfactory references as to the above statements  
can be given.

**PATENT METALLIC KEGS**, for White Lead, Paint, Colours, Printers' Ink, and Dry Goods.

**PATENT METALLIC STABLE-BUCKETS and HOUSE-PAILS**, strong and durable, largely used at Public Works, also for export to the Diggings.

**T**HE attention of Oil and Colour Merchants, and others, is respectfully drawn to the above **METALLIC CASKS and KEGS**, as possessing strength, durability, lightness, cleanliness, and fitness for the several purposes to which they can be applied.

Being proof against changes of climate, leakage, evaporation, absorption, loss from negligent packing, &c., they are specially adapted for export, and possess advantages well known in wooden vessels.

For the preservation of valuable and common Oils in **MILLS and FACTORIES**, the above Casks effect an important saving, and for such Establishments B. & Co. have made them with Glass Tube Gauges, so that the Stock on hand can always be ascertained at a glance.

### TO SHIPBUILDERS & ENGINEERS

**BROWN & CO.** strongly recommend their **Metallic TANKS and CISTERNS** for Ships' Stores. They can be made to any size or *shape* required, and for holding Oil, Tallow, Peas, Barley, and various other commodities on shipboard, they are invaluable. For years past B. & Co. have been supplying them to Shipbuilders, and in every case they are giving satisfaction.

## FRENCH CLASSES

FOR READING, GRAMMAR, COMPOSITION,  
AND CONVERSATION,

21 BLYTHSWOOD SQUARE,  
GLASGOW.

### MONSIEUR A. HAVET

**B**EGS to intimate, that in addition to his engagements in the **GLASGOW ATHENÆUM**, the **COLLEGIATE SCHOOL**, and the principal **LADIES' SEMINARIES** in the West-end, he conducts **PRIVATE CLASSES** at his own residence as above.

The **LADIES' DEPARTMENT**, conducted by Monsieur and Madame Havet, assisted by highly qualified French Governesses, consists of Classes for Pupils at every stage of progress.

Grammar is the groundwork of the teaching; but the chief aim is to produce the practical results of readiness in understanding, and fluency in speaking and writing the language. The main feature of all the Classes, therefore, is **PRACTICE IN FRENCH CONVERSATION**.

The only work required in the elementary divisions is M. Havet's "Complete French Class-Book," which, as a Grammar, is also adapted for the most advanced students.

DAVID CUNNINGHAME

**R**ETURNS thanks for the extensive and increasing patronage which his celebrated Lever Embossing Presses have received since introduced, and begs to remind the Commercial Public, that in the manufacture of these useful and elegant Presses he has no a competitor in Scotland.

D. C. would especially invite attention to his *Newest Pattern* of these Presses, which he has expressly designed to combine lightness and elegance, with power of action; which qualities, he has great pleasure in unreservedly stating, are possessed by this Press above any hitherto made. The great and rapid Sale of the N. P. Press, since introduced five months ago, is sufficient testimony that its qualities are being appreciated; which has also enabled the manufacturer to produce it, complete, at the very moderate figure of 24s.

CONTAINING

A SERIES OF ORIGINAL MEMOIRS

OF

**DISTINGUISHED MEN,**

OF ALL AGES AND ALL NATIONS,

BY WRITERS OF EMINENCE IN THE VARIOUS BRANCHES OF  
LITERATURE, SCIENCE, AND ART.

BIOGRAPHY is unquestionably one of the most pleasing and instructive branches of general history; this has been felt and acknowledged in all ages. The ready access which it finds to the feelings and sentiments of mankind, has its foundation in the inherent principles—the deep recesses of human nature. The actions and sayings of eminent and learned men, even when living, excite the curiosity and engross the attention of the world at large; and when death has separated them from worldly affairs, their aspirations and enterprises—their conflicts and triumphs—their joys and sorrows, become the common patrimony of their descendants, and the cherished heritage of the ardent and progressive spirits of future generations. Universal biography is a striking panorama of the human family, from its earliest origin to the present hour: it exhibits the varieties of human character under all the diversified circumstances of social life; it is a faithful representation of all that is valuable in mind, in action, and in imagination; an exponent of those great principles that touch the heart, guide the understanding, and adorn the conduct.

A biographical work is a constant spur to noble deeds and elevated pursuits. It is a general summary of all those actions of mankind which deserve to be handed down to the admiration and sympathy of the future, as well as a stern and impartial record of those that deserve to be branded with infamy. Whatever influence mere wealth or social position may exercise for the moment over our judgments of the passing actors on the world's great stage, such influence is not felt in a work of this kind. Here nothing but mind working in its effects, whether for good or for evil, can have a place—nothing but intrinsic excellence to be admired and commended, or flagitious vices to be condemned and reprobated. High intellectual and moral qualifications constitute the admission card to the favourable notice of posterity. Matters of passing interest must be forgotten; but the memory of men of genius and talent endures for ages. It is a perennial fountain, from which there are ever flowing copious streams of pleasurable excitement and valuable instruction. The authors of every country, as has been justly remarked, are the unerring and lasting monuments of its greatness, civilization, and power.

# CHEMISTRY,

## THEORETICAL, PRACTICAL, & ANALYTICAL,

AS APPLIED AND RELATING TO

### THE ARTS AND MANUFACTURES.

BY  
DR. SHERIDAN MUSPRATT, F.R.S.E., M.R.I.A.

Founder and Principal of the College of Chemistry, Liverpool;  
Honorary Fellow of the New York College of Pharmacy; Fellow of the Royal Agricultural Society of England;  
Membre de la Societe D'Encouragement; Membre de l'Academie Nationale de France;  
Author of Outlines of Analysis; Chemistry of Vegetation; Influence of Chemistry; and Editor of Muspratt's Plattner on the Blowpipe  
&c. &c. &c.

EMBELLISHED WITH A SERIES OF PORTRAITS OF DISTINGUISHED CHEMISTS.

Dedicated to Baron Dumas and Sir Robert Kane.

EACH day is fertile in discoveries. Knowledge is in a state of perpetual progression. The improvement we have witnessed, during the past few years, in the application of Chemical Science to every branch of the ARTS and MANUFACTURES, has tended to the advancement of the best interests of human enterprise, and justifies us in anticipating a further development of that skill and ingenuity which possess so material an influence on society.

To supply a want which is now beginning to be very generally felt, the Editor has undertaken, for the Publisher, the compilation of a work, to be styled, CHEMISTRY, THEORETICAL, PRACTICAL, AND ANALYTICAL, AS APPLIED AND RELATING TO THE ARTS AND MANUFACTURES. To trace with minuteness, and with fidelity of description, the mighty progress of the Chemistry of the Arts and Manufactures, would be a task which the Editor would not presume to attempt. To follow in their wake, and render available to his readers the accumulated results of many years' labor and intense

application, giving a lucid insight into the several avocations wherein the science of Chemistry exerts a beneficial influence, will be his pleasing duty.

The Editor will endeavor to render the forthcoming work of the utmost practical importance, not only to the Manufacturer, but to those who, by experience, are aware that the mere knowledge of facts does not constitute scientific acquirement. For this purpose will be added, in every instance, the *rationale* of each fabrication, in order that inquirers of every description may be enabled to go through the several detailed processes.

This novel plan will be pursued in a popular form, so as to render the various subjects plain, even to the comprehension of those who are unacquainted with the mere principles of the Science. As an important feature in this work, every Article will be complete in itself; whereby the necessity of numerous references, so annoying to those who engage in studies of this description, will be obviated, The Editor feels confident, that by this arrangement he will also best serve the convenience of the practical consulter, whose time is often of too much importance to be frittered away by uncertain and irregular appeals to authorities. In a work of this description, very great originality cannot be everywhere expected; but due pains will be taken to incorporate, under the relative heads, every new fact and process, as well as every statistical notice that can, in any way, interest the Manufacturer. Dr. Muspratt, being well acquainted with gentlemen in every branch of Technology, enjoys peculiar opportunities of collecting such information. The works principally consulted, and from which details, *et cetera*, will be chiefly extracted, are the Encyclopedia Britannica, and the systems of Dumas, Berzelius, Kane, Ure, Poggendorff, Turner, Thomson, Donovan, Booth, Knapp, Malepeyre, Brande, Rosè, Gmelin, and others.

To facilitate the acquiring of knowledge, that the spirit of onward movement in the masses engaged in Chemical Arts and Manufactures may be preserved and fostered, is surely an object of laudable ambition. Such is the view of the present work; in constructing which, the Editor trusts he will not overlook anything which can possibly benefit his readers, by increasing their store of scientific intelligence.

Of all arrangements, the alphabetical is the easiest and most convenient, especially for those who are imperfectly acquainted with science; consequently, this mode of classification will be adopted.

The Work will be completed in about Forty Shilling Parts, each containing thirty-two pages, and every alternate Part will be enriched with a Portrait of some distinguished Chemist. The Illustrations will embrace every branch of the Arts and Manufactures, and will be intrusted to the most competent hands. No expense will be spared to render every department as perfect as the importance of the various subjects, and the existing condition of human acquirements, will admit. Neither inverted commas nor brackets will be used in the work. When an extract is made, although it may be materially altered, the name of the author quoted will appear before or after it.

In concluding, the Editor would beg to impress upon the peruser of this Prospectus, the importance of Chemistry in all investigations relating to Technology. An eminent colleague justly remarks—She, like a prudent housewife, economizes every scrap. The horseshoe nails dropped in the streets during the daily traffic, are carefully collected by her, and resuscitated in the form of swords and guns. The clippings of the travelling tinker are mixed with hoofs, or the discarded woollen garments of the poor, and soon afterwards, in the form of dyes of the brightest hue—Prussian blue—grace the dress of courtly dames. The main ingredient of the ink with which the Editor now composes, was possibly once part of the broken hoop of an old ale barrel. Bones of dead animals yield the main constituent of lucifer matches; dregs of port wine, scrupulously rejected by the port-wine drinker in decanting his favorite beverage, are taken by him in the morning in the form of seidlitz powders, to remove the effects of an overheated brain: street offal, and the washings of coal gas, reappear, nicely preserved, in the lady's smelling-bottle, or are used by her to flavor blanc-manges for her friends. This economy of the Chemistry of Art is only in imitation of what we observe in the Chemistry of Nature.

The fabrication of coal-gas is an admirable example of the good conferred by Chemistry. Through its introduction, morality was improved and crime lessened, owing to the brilliant lighting of our streets making every passer-by a detective policeman. Without Chemical Science, Arts and Manufactures would soon become stationary in our country. The result of the Exhibition was one, says Dr. Playfair, that England may well be startled at. Wherever—and that implies in nearly every instance—Science or Art was inwrapped as an element of progress, it was seen as an inevitable law, that the nation which most cultivated it was in the ascendant—France, the birthplace of a Lavoisier and of a Dumas. Another savant writes:—Let us glance at those countries where Chemistry has been studied, and its assistance wooed, we find them workshops for the world, wherein excellence has been produced, and wealth flows in continuous and willing tributaries from the ends of the earth, to purchase and reward it. In this respect the magnificent display of artistic and scientific skill presented in the Great Exhibition of the Industry of all Nations, unfolded revelations which, trumpet-tongued, proclaim this truthful warning, that the country which aspires to hold a place in the world's career, dares no longer remain indifferent to the culture of practical science.

### LETTERS TO THE EDITOR.

FROM BARON DUMAS, M.D., F.R.S.

Professor of Chemistry; Member of the Institute; Member of the Imperial Senate, &c. &c.

I HAVE found, on my return from a journey, the first two Parts of your finely elaborated work on Chemistry. I thank you in the name of Industry and Science for having placed at their disposal the practical information which your high technological position has enabled you to collect.

Your great experience promises abundant and precise information. As a Frenchman, I have been highly gratified to see my name in conjunction with that of Sir Robert Kane in the dedication of the work.

You have wished to show that the sciences and their applications to the welfare of humanity do not admit either of the divisions which politics establish sometimes between nations, or of the rivalry between people which arises from a conflict of interests.

I accept with gratitude the new proof of sympathy which you offer to France in the name of England, and have the honour to be, &c.

J. DUMAS.

FROM PROFESSOR F. GRACE CALVERT,

Royal Institution, Manchester.

As a Subscriber and Chemist, I have great pleasure in taking this opportunity of expressing to you my opinion, that I consider your interesting work as the best and most complete one which has yet appeared of Chemistry applied to Arts and Manufactures; and that I am convinced it will prove to be of great utility to all Manufacturers, owing to the lucid manner in which each subject is treated, and the valuable information it gives on it; and allow me to add, that we should all feel deeply indebted to you for having brought out a work which will tend so much to popularize our valuable science.

F. GRACE CALVERT.

FROM SIR ROBERT KANE, M.D., F.R.S.,

President of the Queen's College, Cork, &c. &c.

I HAVE received with very great pleasure the first Part of your new work on the Chemistry of the Arts, and I feel bound to express my sense of the remarkable skill and clearness with which the scientific principles are described, the manufacturing processes detailed, and the commercial circumstances discussed, as regards the important branches of manufactures with which the work so far has been occupied. I feel very much gratified at receiving so distinguished a mark of your consideration as the dedication to me of so valuable a work on Industrial Science, and I value it the more for being associated therein with the Baron Dumas, whose eminence as a Philosopher and Chemist I so much respect, and whose personal qualities and friendship I so much value, &c.

ROBERT KANE.

FROM PROFESSOR BRANDE, D.C.L., F.R.S.,

Of the Royal Mint.

I HAVE this morning received the first Part of your splendid (for so I may call it, when compared with what has hitherto been done in the same way) and laborious work.

If you go on as you have commenced, there can, I presume, be little doubt that your work will supersede all similar publications in this country; and, indeed, so it ought, from its price and character. One thing only I apprehend, which is, that it will considerably extend beyond the bounds you have assigned to it; and I do hope, that by-and-by, when you come to find this, you will not be induced to cramp its extent. I should assign 50, instead of 40 Parts, as its probable extent.

WM. THOS. BRANDE.

WITH INTRODUCTORY ESSAY ON THE PHILOSOPHY OF LANGUAGE AND UNIVERSAL GRAMMAR,  
BY SIR JOHN STODDART, LL.D.;

AND A SKETCH OF THE ORIGIN AND PROGRESS OF THE ART OF WRITING,

BY HENRY NOEL HUMPHREYS,

*Illustrated with Richly-coloured Examples, Facsimiles, and other Embellishments.*

DR. WEBSTER'S DICTIONARY has long been considered the very best yet published. The Work has passed through a number of editions, and in each improvements have been made by the addition of new matter, and the correction of previous errors, until the Work is now emphatically THE STANDARD DICTIONARY OF THE ENGLISH LANGUAGE. One important feature of this book is, its being a **SYNONYMOUS DICTIONARY**. Under each of the important words, all others having the same general signification are arranged together, except in cases where they have been previously exhausted in framing the definitions. This arrangement will be found of frequent use even to those who are practised in composition, while it affords important aid to young writers in attaining grace, variety, and copiousness of diction.

The chief value of a Dictionary consists in its *definitions*—in its giving a clear, full, and accurate exhibition of all the various shades of meaning which belong by established usage to the words of a language. It is in this respect especially that Dr. WEBSTER'S Dictionary has been generally considered superior to every other; and to this point, therefore, the labours of the present Editor have been mainly directed. No efforts have been spared to consult the most recent and valuable works, not only in lexicography, but in the various departments and the arts embraced in the Dictionary. As these subjects are in a state of continual progress, every important word in its various applications has been diligently examined and compared with the statements made on each topic by the latest and most approved authorities. In addition to this, the Editor has been assisted by various distinguished Professors, who have revised the definitions belonging to their several departments.

On the subject of **PRONUNCIATION** much labour has also been bestowed in this Edition. A careful comparison has been made with the latest authorities, and wherever changes seemed desirable they have been introduced. Many thousand words have been respelt, and no effort has been spared to render the work in all respects a **COMPLETE PRONOUNCING DICTIONARY**.

The **NEW WORDS** that have been added amount to several thousands, and the Dictionary now contains 27,000 words more than "TODD'S Edition of JOHNSON."

This Edition will include, for the first time, an Introductory Essay on the Philosophy of Language and Universal Grammar, by Sir JOHN STODDART, LL.D.; and also a Treatise on the Origin and Progress of the Art of Writing, by HENRY NOEL HUMPHREYS; illustrated by Specimens of the art of writing in all ages (many richly coloured), and an abundant Series of Facsimiles arranged in Chronological Order to exhibit the gradual advance of the art; the whole Revised by the Author expressly for this Work.

This greatly improved and enlarged Edition of WEBSTER'S Dictionary is carefully printed upon superfine imperial paper, in a clear readable type, in double columns, and will be completed in **Thirty-Six Shilling Parts**; the whole forming two handsome imperial 8vo volumes.

# THE MERCANTILE AND MARITIME GUIDE.

## OPINIONS OF THE PRESS.

*TIMES' City Article, March 12, 1856.*

The **MERCANTILE AND MARITIME GUIDE**, by Messrs. Willmore and Beedell, is a work for consultation on the various questions constantly arising as to the rights and duties of merchants, shipowners, brokers, &c. It contains also full instructions for the performance of the usual branches of commercial business, besides a collection of the orders of the various Government departments, and a great number of statistical tables. Altogether, the work appears to have been prepared in a very complete and satisfactory manner.

*MORNING CHRONICLE, March 14, 1856.*

One of the most useful and essentially necessary works connected with trade, has just been issued. It is the joint production of Mr. Graham Willmore, A.M., one of her Majesty's Counsel, and Mr. Edwin Beedell, of her Majesty's Customs, London, and author of the "British Tariff." The object of the work is to furnish to all persons connected with the mercantile and maritime interests of the country, such matter, arranged in a clear and compendious form, as shall inform them of their rights and duties. This labour has been most efficiently accomplished, and the book is a most valuable addition to the standard works of utility. It concentrates the laws relating to the established custom of merchants, the decisions of courts, and the enactments of the legislature, with all the orders and regulations bearing upon shipping, and upon the home and foreign trades of the country, with a variety of most useful miscellaneous facts. The Consolidated Merchant Shipping Act is given with explanatory notes and comments of a practical nature, likewise the pilotage and harbour dues of every port in the United Kingdom, with all the rates and charges on shipping, and regulations observed at the various docks and wharves in London, together with complete tables of duties and drawbacks of customs and inland revenue, all official orders connected with trade, and an exposition of the mode of transacting the import, export, and transshipment business, the whole comprising a vast amount of mercantile and maritime information, heretofore widely dispersed, but now brought within a comprehensive manual. We confidently recommend the work to the commercial interest, as a valuable guide in all matters relating to trade.

*MORNING ADVERTISER, March 18, 1856.*

The very extensive subject of the rights and obligations of members of the commercial community, under every possible state of circumstances and in every portion of the world, has been admirably condensed within the

limits of this volume, the contents of which sufficiently attest for themselves the amount of varied research and of intelligence which has been brought to bear upon the task. It has been accomplished in a manner that can leave little to be desired, affording to the merchant all necessary information to enable him to conduct his operations with security and confidence. Great attention has evidently been paid to the very numerous details of the subject, and the merchant might rely with confidence upon its furnishing him with assistance and advice under all circumstances.

*GLOBE, March 17, 1856.*

This work might be well entitled an Encyclopædia of all the law which concerns the business of the merchant and the shipowner. The legal acquirements of Mr. Willmore, associated with the official experience of Mr. Beedell, have combined to produce nearly twelve hundred pages of matter, from which nothing seems omitted that ought to be contained in a volume professing, as this does, to enlighten the commercial world on every subject of interest to them. Amongst the more prominent subjects treated, are—the laws which govern the merchant shipping service—those which regulate the passenger traffic—the existing customs' duties, including the rules applicable to inward and outward transit—bonds to the crown, foreign moneys, weights, and measures—exchanges and insurances, with several useful and elaborate tables. The volume, judging by the latter alone, seems got up with a disregard to expense, for which the proprietor deserves the warmest gratitude and support of the mercantile classes.

*ATHENÆUM, April 12, 1856.*

The compilers of this thick volume redeem their prefatory promise "to furnish all persons connected with the mercantile and maritime interests of this country, such matter arranged in a compendious form, as will inform them of their rights and duties, and enable them to transact their business with accuracy, confidence, and facility." Here is a practical object plainly described, and it has been fulfilled by bringing together and explaining the law of the subject, arising from the custom of merchants, the decisions of courts, and legislative enactments, by collecting all the regulations in force concerning shipping and trade, and by presenting the necessary information on matters of fact. The various statutes have not been merely cited, but explained in legal treatises, brief, lucid, and careful. The recent and most important statute, the Merchant Shipping Act, is quoted at large, analysed, and

annotated. Moreover, the pilotage rates and harbour dues are furnished for every port in the United Kingdom, with the rates and charges of the docks and wharves in London, tables of duties and drawbacks, orders in council, and regulations of the Board of Trade, besides a minute explanation of commercial methods, rules, and manners in Great Britain. A synopsis of customs' bonds, a list of warehousing ports, and of the principal ports and places of shipment throughout the world—a concise review of the articles of merchandise, chiefly constituting the export and import trade of this country—and tables of money, measures, weights, and exchanges, of relative values and prices, are given in separate departments of this very comprehensive manual. Merchants and others interested in commercial and maritime affairs will at once appreciate the labour and the ability which have been devoted to the compilation of the work, which is, in scope and accuracy, not only unsurpassed, but unrivalled.

CRITIC, *April 15, 1856.*

An invaluable work of reference, containing the fullest information respecting everything that appertains to mercantile and maritime transactions. From among the vast mass of information contained in the volume, we may specify the various statutes bearing upon merchant shipping, passengers, pilotage, port and harbour dues, and aliens; the customs laws, and every particular respecting the levying of duties, tables of tariffs, &c.; and a collection of tables showing the relative value of all the various moneys, weights, and measures in use throughout the world. It is impossible to overrate the value of such a work.

OBSERVER, *March 31, 1856.*

This large volume, of nearly 1200 ample and closely-printed pages, will be found one of extensive utility to two of the most important classes in the community. It is compiled, and in many parts written, by two gentlemen, one learned in all that relates to mercantile and maritime law, and the other deeply experienced in the practice and usages connected with each trade or commerce. It is divided into five parts, subdivided into forty comprehensive sections, each embracing some important branch of mercantile and maritime custom, law, or practice, and these sections comprise no fewer than 1664 items. It is a work of vast research, admirable, and we have no doubt, accurate execution. No merchant or naval man should allow his counting-house or library to be without it. The intelligent reader, though no trader or seafarer, but who seeks information of all sorts, will find in the volume much to instruct him, and excite pleasingly his reflecting faculties. As a book of reference and study in this the greatest of commercial countries, we hardly know of its equal; and it is, therefore, recommended by us very earnestly to the serious attention of every member of that community who transact trade and commerce with all—or, at least, portions of all—the people of the earth.

SHIPPING AND MERCANTILE GAZETTE,  
*March 28, 1856.*

Few commercial works have come under our notice recommended by such meritorious claims to public consideration as this. It is so ably digested, so carefully arranged, and embraces in its various details such a mass of useful practical information, that it forms a *multum in parvo*, supplying of itself all that we have hitherto had to search for in several volumes. To go over in detail the subjects touched upon is impossible. The work is evidently no mere hasty compilation, but a carefully-written digest, in which every available and reliable authority has been consulted—hence, our merchants and shipowners will find in this comprehensive manual a mass of information necessary for directing the course, and developing the resources of their trade, both at home and abroad.

BANKERS' CIRCULAR, *March 22, 1856.*

This is a work which is really designed for persons engaged in mercantile and marine pursuits, and embraces a wide range of subjects connected with these two branches of our national industry. The law on these subjects has been within the last few years so changed, as to require that it should be treated in a clear and practical form, and we have much pleasure in saying that the authors of the present work have performed a very arduous labour imposed upon them in the production of this publication. The book in itself is a complete Cyclopædia of Trade and Commerce, such as the greatest commercial nation in the world has a claim to place before her "merchant princes."

CIVIL SERVICE GAZETTE, *March 22, 1856.*

It would be impossible within our limits to give an adequate idea of the comprehensive work now before us. Professing to be a guide to merchants, shipowners, masters, agents, brokers, in short, to all who have to do with the mercantile marine of this country, it is, in the amplest sense, an authority and directory upon almost every conceivable point of difficulty which can arise in connection with the vast and complicated interests of which it treats. Indeed, it would be hard to say what it is which is needful to be known on the various subjects connected with our mercantile marine, which is not amply treated of in this book. It contains, besides, a carefully-compiled index, is convenient in size, and as a guide and expositor on questions of doubt or difficulty will be found of the greatest value.

ECONOMIST, *May 10, 1856.*

This is an admirably got up and really complete and authentic compendium of all the information essential to merchants on matters connected with their profession—matters legislative, financial, commercial, and customary—which can be conveyed in books. All persons engaged in commercial enterprise will find it well worth their while to possess it.

G., to No. 40, W. G., and all widths, from 2 to 18 inches; and can be had cut to any dimensions, suited for Engineers' and Brassfounders' purposes; also for Door and Window Plates, for Engravers, &c.; SPRING BRASS, for Printers' Rule-makers, and other purposes; BRASS AND COPPER WIRES, for Reed-makers, Bottling purposes, Engineers, Brassfounders, &c.; COPPER RIVETS AND WASHERS; SPELTER SOLDER, of all degrees of coarseness and fineness; BLACK SOLDER for Fine Work, which is easily melted; also REFINED BORAX for Brazing purposes; GALVANIZED IRON GOODS of every Description; PLAIN AND CORRUGATED IRON SHEETS, TELEGRAPH WIRE, &c.

 *Where convenient, and when time will permit, Shippers of Sheet Zinc, Spelter, Bismuth, Crucibles, and other Continental Goods, may save the Freight to Scotland, by having their orders shipped at Stettin, Hamburg, or Rotterdam.*

### TUBES

Of every Description, for Locomotive and Marine Boilers, Gas, Steam, Water, &c. The BRASS TUBE of this establishment is all of Birmingham make, and of the very best quality. Every description of Fancy Tubes—*reeded, beaded, spiral, cable twist, French twist*—of all sizes, in Stock. Taper Brass and Copper Tubes; Open Joint Tube for Beading; Patent Cased for Rails and Picture Rods. Lead, Composition, and Patent Tin Tubes; Tubes made expressly for Beer Engines and Pump Chambers.

### PATENT WELDED MALLEABLE-IRON TUBES, AND WROUGHT-IRON FITTINGS.

 *As Scotch Agent for the English make of Wrought-Iron Tubes, W. Johnston calls special attention to the fact of their decided superiority over the Scotch make; and also requests comparison of Prices and Discounts, he being in a position to put GAS COMPANIES, SHIPPERS, CONTRACTORS, &c., on the very best Terms. When quantity is required, they can be had cut to any given sizes, free of extra charge, and delivered free at the principal Shipping Ports in England or Scotland. A large Stock always on hand of every variety of equal and diminishing WROUGHT-IRON Tees, Knives, Bends, Crosses, &c.*

## GAS LUSTRE MATERIALS.

This has always been the leading Department of the GLASGOW TUBE AND METAL WAREHOUSE since 1849. Previous to that time such goods could only be had in Scotland direct from the Makers, by having a multiplicity of accounts, in which case the Carriage of separate lots of Goods was very heavy, besides the long and vexatious delays which were necessarily incurred; and when access was not to be had direct with the Makers, orders had to be given through general Factors, who could not be expected to know the trade, or through shopkeepers and retailers in Edinburgh and Glasgow, at greatly increased prices.

W. JOHNSTON is now, and long has been, the *ONLY PARTY* in the Kingdom who keeps a Stock of ALL THE ARTICLES REQUIRED BY GAS LUSTRE MAKERS, BRASS-FOUNDERS, and PLUMBERS. No Agency is undertaken unless put in a position to supply all parties at least as cheap as if ordered direct from the Works; and a Stock of several thousand pounds' worth is kept up for the convenience of the Trade, and security of the position the establishment has obtained in the estimation of the LAMP-MAKERS, GAS-FITTERS, and PLUMBERS of Great Britain.

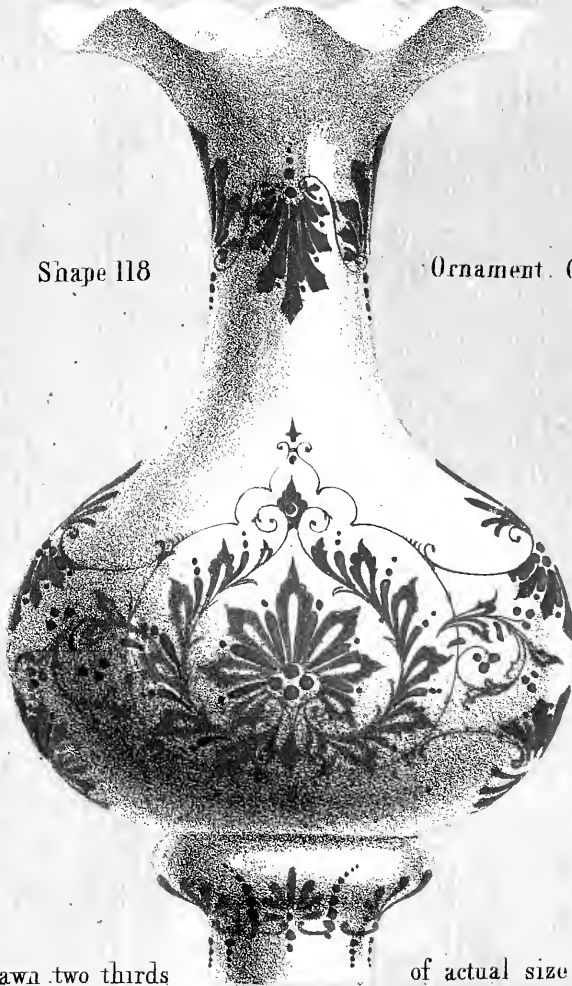

### STAMPED, or ROUGH-STRUCK WORK.

A large and amply assorted Stock is kept—in Lamp Bodies, 2, 3, 4, 5, and 6 light; Balance Weights, Vases, Knobs, Husks, Spouts, Arms, Pillars, Rosettes, &c. In this branch there are only six makers; two, of the old school, travel the country; with the other four W. JOHNSTON is directly and indirectly interested, and has the exclusive sale of their products in Scotland and Ireland. It must thus be apparent that no single maker—even were he not of the old-fashioned and high-priced school—could give the same assortment as one who virtually represents the whole real trade in such goods; and besides getting special orders quite as promptly executed, a Stock, not to be met in all Birmingham, is open to be selected from.

## MISCELLANEOUS.

METALLIC CORD for Balance Weights; BRASS WIRE CHAIN, open and close Link; MACHINE-MADE CHAIN (Johnston's Registered and other Patterns) for Balance Weights; PURE BLACK LEAD, kept specially for Bronzing Work; LACQUERS of all shades, Green, Gold, Palé, &c.; DIPPING, AQUAFORTIS, AND MARINE ACID, made specially for Brassfounders' use; CRUCIBLES, CIRCULAR, POLISHING, and FINISHING LATHE BRUSHES; BRASS WASHERS; LINKS, Cast and Stamped; ROLLERS, for Chain of the improved description, either *Rough* or *Lacquered*; GLASS ORNAMENTS (see page 5); NEW PARIAN VASES, for Gas Lustre Centres.

# PLUMBERS' MATERIALS.

**CAST-IRON GOODS** of the most Modern and Improved description, in Rain-Water Pipes, Runs, Bends, Angles, Shoes, Cups or Pipe Heads, Swan Necks, Sinks or Jaw-Boxes, Closet-Metals, and every other description of Cast-Iron Goods required by the Trade. From arrangements with the two first Founders in Glasgow, the Prices and Terms will be exactly the same as if ordered direct from a respectable foundry; and orders are more likely to be carefully and promptly attended to, than if sent to a foundry devoted to Miscellaneous Castings.

**EARthenWARE GOODS.**—Sole Agent for Messrs. Sharpe, of the Swadlincote Potteries, whose Cheap and Durable Ironstone Ware is the best in the Market. PAN CLOSET BASINS, 2s. 9d. each; SHIP CLOSET BASINS, 2s. each, white inside, and cane colour outside. Basins and Traps, complete and separate; Angle, Flat, and Cradle Urinals, all sizes, in same description of Ware, equally Cheap.

[Special attention is invited to Messrs. Sharpe's recent patent improvement, applicable to all descriptions of Water-Closet Basins, the working of which may be seen at the Warehouse.]

Every variety of White and Blue Printed Sanatory Goods, of very superior quality, in Ship and House Closet Basins. Urinals, about fifty varieties in Stock, applicable to all sorts of buildings and situations. Also the only Stock in Scotland of Fountain Basins, Table Tops, Wash Tubs, Wash-hand Plug Basins, Cabinet Stands, and Patent Closets of all sizes, and from the plainest to the most richly gilt and ornamented.

W. JOHNSTON'S Improvements in Machine-made Water-Balls, Closet Pans, &c., are so well known as scarcely to require notice; but it is not generally known that any article in Copper, Brass, Zinc, or German Silver, of a circular shape, can be made more truly correct, with a better finish, and cheaper by the mode employed in his Birmingham Works, than by any other process yet discovered. In Closet Pans, 9, 9½, 9¾, 10, 10½, and 10¾ inches diameter, his make now commands the almost exclusive sale in this market; also his Copper Water Balls, all sizes, 4 to 10 inches diameter. Brass Counter and Cabin Basins, without seam or hammer mark, 9 to 14 inches. Reflectors, Metal Bowls, and other dishes or similar shaped articles, can be produced by this process of manufacture.

**BRASS WORK** of every description required by the Trade. Nose, Stop, and Ball Cocks, Common Key and Patent Valve Sorts, Swan Neck Cocks, Pumps of all sizes and kinds, Water Closets, &c., &c., including all the newest patent inventions and improvements.

When screwed jets are required, please to say whether London or Lancashire screw. Patent Argand Burners of several sorts, including the ALBERT SHADOWLESS BURNERS, the LUCENT BURNERS, of three sizes, so suitable when used along with the large Reflectors for Shop Windows.

*\*\* Information regarding all Patents and Improvements connected with Gas Lighting, and in most cases the Patented Articles, may always be found first at this Establishment.*

## FILES, STEEL, TOOLS, &c.

This Department of his Trade was entered into solely at the solicitation of many valued Customers in Steel Goods, there being so many varieties of quality not appreciable till goods were used, that a desire was very generally expressed to get supplies through a reliable source. W. JOHNSTON in this, as in other branches, only arranged with first-class houses, on being put in a position to sell at same rates as if ordered direct from the Works. He is happy to be able to refer to the invariable satisfaction the goods have given. All sorts of Files for Engineers and Brassfounders, Steel for Turning Tools, &c. Stocks, Taps, Dies, Combs, Plumbers' Knives, Scrapers, &c., &c.

COCHRAN STREET, GLASGOW

Has just been published on a large Chart, 57 by 42 inches. PRICE, PLAIN SHEET, 15s.; VARNISHED, AND MOUNTED ON CLOTH AND ROLLERS, 21s.

The leading newspapers of England and Scotland have given long and very favourable notices of this Chart, from which are subjoined some short extracts:—

"The manner in which W. Johnston has accomplished this extremely tedious task, reflects the highest credit upon his tact and judgment. The sheet presents at one view an immense amount of information, of the greatest utility to all connected with the metal trades—the authorities quoted, as having been consulted in its compilation, being sufficient guarantee for its accuracy. Amongst the most important features, we may mention a diagram showing the prices of the principal metals on the first Saturday of each month during the last sixteen years, and tables giving the average prices for each year during the same period. There are also tables of the specific gravity, melting point, discoverer's name, and date of discovery of the several metals; with their order of hardness, ductility, malleability, heat-reflecting, and heat-conducting powers—electrical conduction, fusibility, tenacity, &c.; the Birmingham wire and metal gauges, and the modern Belgian zinc gauge, with their dimensions in decimals of an inch; thickness and weight of the several metals, tubing, &c., and their strength and power to resist pressure. The sheet, in fact, contains as much information in a condensed and tabular form, as could be gleaned from a large number of books, and tedious research."—*Mining Journal*, London, March 15.

"A monument of industry and knowledge of this important branch of commerce and trade, perhaps as durable, and certainly more universally useful, than many of those erected to commemorate the names and acts of merely local celebrities. Contains such an amount of information, of all kinds, connected with metals in every state, and in many manufactured forms, that it will serve the purposes of a dictionary and ready-reckoner to all persons engaged in metallurgical processes—to metal manufacturers, mechanics, and merchants."—*Glasgow Herald*.

"Succinct and comprehensive. An extraordinary *vidimus*—invaluable for the counting-house of parties engaged in the metal industry of this country."—*Glasgow Citizen*.

"Large, elaborate, and beautifully printed. A more valuable adjunct to the business of the dealer in metals, or to the experiments of the man of science, could not well be conceived."—*Daily News*.

"No BANK, HOTEL, or PUBLIC INSTITUTION, should be without one copy, at least. So systematized, that no person can err in consulting it. Considering its dimensions, accuracy, and clearness, the chart is amazingly cheap."—*Bulletin*.

"Embraces every point in connection with metals, which the worker or dealer in such may require to know—will, we are sure, be extensively popular. We recommend it to the public, whose business will be facilitated, by ascertaining, at a glance," &c., &c.—*North British Daily Mail*.

"Can confidently recommend it to all who are connected with the metal trade."—*Birmingham Journal*.

"Must be invaluable—presents an immense amount of information."—*Manchester Examiner and Times*.

"There is not an item of practical information as to metallurgy, which will not be found in Mr. Johnston's admirably prepared and elaborate tables."—*Falkirk Herald*.

"To all who deal or work in metals, it will be found indispensable. It presents, in a shape easy of reference, in fact at one view, the contents of dozens of volumes, so far as practical utility is concerned."—*Edinburgh Daily Express*.

"A vast deal of labour must have been expended in the preparation of this sheet, and it gathers together a mass of information, which must render it extremely useful to all connected with the metal trades."—*Bristol Mercury*.
